## About NetRack

The advent of computers heralded the birth of many industries in support of it. The rapid growth and advancement in technology that is being witnessed every day necessitates the setting up of data centers with associated paraphernalia of storage systems, networking and telecommunications to handle voluminous data that is threatening to grow exponentially by the minute snowballing into an avalanche.

All this comes with a heavy price tag of increased complexity in setting up and maintenance of the same. There are many constraints and challenges faced by industries today.

The complexities include dealing with copious amounts of cables that connect various components to achieve synchronicity amidst the chaos. The vital components like huge servers and storage systems need to be organized and well accommodated within the given space. As these electronic components consume huge power, they are also subjected to over heating and thus the need arises for cooling systems.

Most importantly security has always been a major concern and issue. As these systems store sensitive data which cannot be compromised, the need for their protection and denial of unauthorized access was of paramount importance.

The need of the hour today is an industry that addresses the constraints and takes over the nitty-gritty's of the backend and offers the Clients the luxury of carrying on the business at hand.

Having studied and understood the challenges faced by these industries, NetRack offers an array of services that serve to Store, Secure, Streamline & Systemize passive and active network components like:

- Data Center Racks
- Acoustic Racks
- iRack & iRack Blocks
- Server & Networking Racks
- High Density Open & Closed Racks
- Data Center Technology Products
- Customized Racks
- Lab Racks & Furnitures

## Management

From its humble beginnings in 2001, NetRack Enclosures Pvt Ltd today has earned the tall distinction of being the sole company in the country to be UL (Underwriters Laboratories, Illinois) listed. The vision and consorted efforts of the management team at NetRack Enclosures Private Ltd has been instrumental for the company's tireless and sincere service for more than a decade.

### U Nagaraj

Director - Technical

Nagaraj is the Technical Director at NetRack Enclosures Pvt Ltd. Armed with a degree in Industrial and Production Engineering and with more than a decade's experience in design and manufacturing of sheet metal enclosures; he is responsible for the design and execution of technical projects.

### U Ravi Raj

Director - Sales & Support

A mechanical engineer by vocation, Ravi took on the mantle of spearheading the growth and success of NetRack. He brings with him a wealth of hands on experience in the field of marketing and domain expertise in high end technologically advanced products. He is responsible for regularizing and ensuring the smooth functioning of the company.

### V Raja Ram

Director - Commercial

Raja Ram is the Commercial Director at NetRack Enclosures Pvt Ltd and has vast experience in Purchase and Vendor Development. Having honed his analytical skills as a mechanical engineer and with acumen for strategizing, planning and implementing, he is responsible for the commercial, legal, structural and financial aspects of the company.

### Suraj G. Shetty

Director - Admin & Complainece

Suraj G. Shetty is the Admin & Complainece Director comes with a vast experience. We ensure that the right products with proper documentation are delivered to the right location on time, transportation, stock control, warehousing and monitoring the flow of goods. The goal is to manage the entire order cycle, so as to enhance business development and ensure sustain ability and customer satisfaction.

### Mission

NetRack Enclosures Private Ltd's mission is to deliver time bound quality products that are superiorly designed and precision engineered to perfection, to help the customers overcome their constraints while enabling scalability and increased performance at reduced cost.

NetRack guarantees to offer its Clients good customer support services for problem solving and better relations.

### Vision

NetRack Enclosures Private Ltd, foresees itself as a single window solutions provider for all data, network and server related concern. Improved customer relations, employee welfare and transformation at all levels to achieve more than what we have achieved so far. The company wishes to upgrade itself through research and development of newer technologies for enhanced performance, scalability and cost effective products to cut costs to the customer.

NetRack Enclosures Private Ltd plans to enhance its infrastructural capabilities to keep in step with the latest advancements and developments in information technology. In continuation of its infrastructural plans the company also wishes to keep its workforce up-to-date and well versed with new and emerging technologies.

NetRack also wishes to do its mite to the environment by adopting environment friendly processes for the manufacture of its products.

## Infrastructure

NetRack Enclosures Private Ltd has in place the latest state of art technology of 1.5 lakh sq ft for the production of products that are on the same footing and quality standards as comparable to the best in the international market.

The products are scientifically designed and engineered to perfection to meet the Client specifications and requirements. Having set its benchmark of quality high, NetRack Enclosures Private Ltd has adopted and implemented the best quality control methodologies.

In addition to its infrastructural strength in terms of technology, NetRack Enclosures Private Ltd is adequately supported by an equally competent workforce. The production unit stationed on 1.50 lakh sqft area of land is equipped with the following:

- CNC Punch Press
- CNC Press Brake
- NC Shearing Machine
- CO2 Welding and Spot-welding machines
- Presses
- SPM and Support Machines
- Powder Coating Facility
- Design & Prototype Testing Facility

**CERTIFICATE OF COMPLIANCE**

Certificate Number 20160620-E332542  
Report Reference E332542-20110726  
Issue Date 2016-JUNE-20

Issued to: NETRACK ENCLOSURES PVT LTD  
Sy No 130  
Machohalli Cross  
Magadi Main Rd  
Bangalore Ka 560091 INDIA

This is to certify that representative samples of AUDIO/VIDEO, INFORMATION AND COMMUNICATION TECHNOLOGY EQUIPMENT, CABINET, ENCLOSURE AND RACK SYSTEMS  
See Addendum

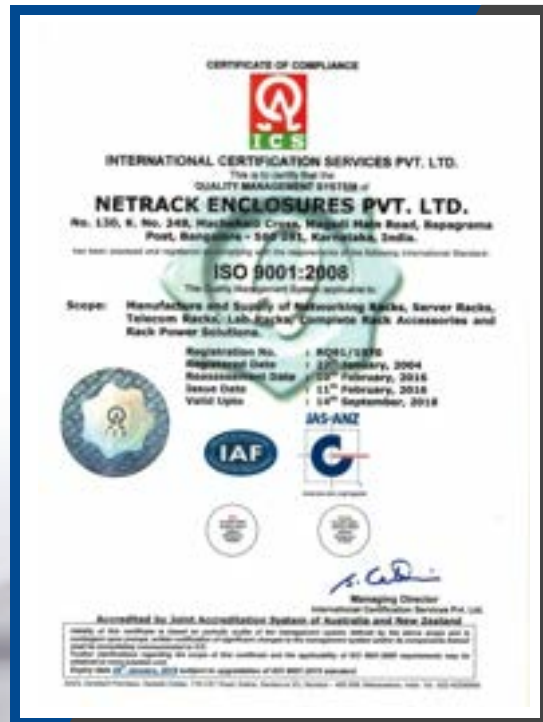

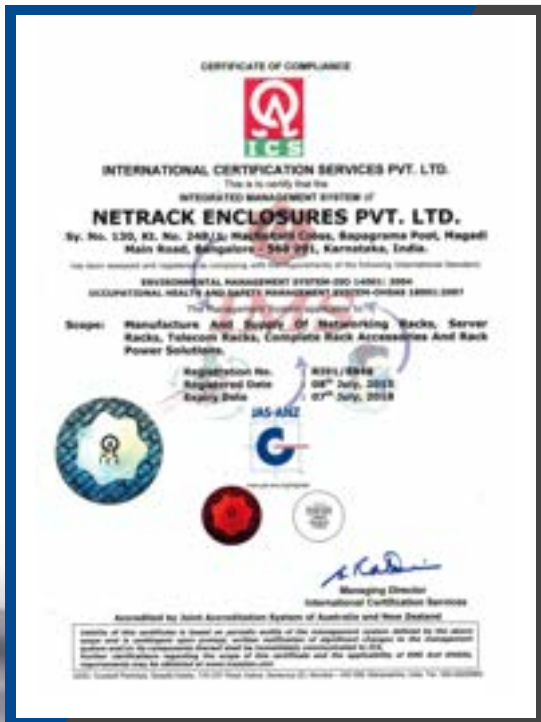

Have been investigated by UL in accordance with the Standard(s) indicated on this Certificate.

Standard(s) for Safety: UL 60950-1, Information Technology Equipment - Safety - Part 1: General Requirements  
UL 2416, Outline for Audio/Video, Information and Communication Technology Equipment Cabinet, Enclosure and Rack Systems,  
CAN/CSA-C22.2 No. 60950-1-07, Information Technology Equipment - Safety - Part 1: General Requirements.  
Additional Information: See the UL Online Certifications Directory at [www.ul.com/database](http://www.ul.com/database) for additional information

Only those products bearing the UL Certification Mark should be considered as being covered by UL's Certification and Follow-Up Service.  
Look for the UL Certification Mark on the product.

**1 DATA CENTRE SOLUTIONS & AIRFLOW MANAGEMENT**

- A. Hot Aisle Containment - HAC
- B. Cold Aisle Containment - CAC
- C. Thermal Management
- D. Air Diverter Solution
- E. Brush Modules
- F. Enhanced Cooling
- G. Air Seal Kit
- H. Blanking Panels

**2 HIGH DENSITY CLOSED RACK SOLUTIONS**

- A. Closed High Density Server Racks NRSe Series
- B. Closed High Density Server Rack with Seismic Rating NRSs Series
- C. Closed High Density Network Racks - NHDC Series

**3 INTELLIGENT RACKS & COOLING SOLUTIONS**

- A. iRack - Self Cooled, Self Powered & Self Contained Rack
- B. Enclosures Cooling Solutions

**4 ACOUSTIRACK SOLUTIONS**

- A. Sound Proof Cabinet - Active Noise Cancellation

**5**

**OPEN RACK SOLUTIONS**

- A. NAOR - 2 Post Series
- B. NAOR - 4 Post Series
- C. NRFS Series
- D. NRS & NRA 4 Post Open Frames (600 & 800 Wide Racks)

**6 HIGH DENSITY CABLE MANAGEMENT SOLUTIONS**

- A. High Density Vertical Cable Organisers HDVCO Series
- B. High Density Horizontal Cable Organisers- HDHCO Series

**7 CABLE MANAGEMENT & UNIVERSAL RUNWAY SOLUTIONS**

- A. Universal Runway Systems
- B. Universal Runway Accessories
- C. Runway Kits
- D. Vertical and Horizontal Cable Organizers

**8 RACK POWER & ELECTRONICS**

- A. Normal Power Distribution
- B. Metered Power Distributions
- C. Colored Power Distribution Unit
- D. Power Cords
- E. IEC Lock Power Distribution & Power Cords
- F. Safe Transfer Switch
- G. Intelligent Power Distribution Unit
- H. Power Management Solutions
- I. Intelligent Locking & Monitoring Solutions
- J. Standalone Rack Security Solutions
- K. Rack Environment Solutions
- L. KVM Solutions
- M. LCD Consoles

**9 MEDIUM DENSITY CLOSED RACK SOLUTIONS**

- A. Closed All Steel Server & Network Racks - NRS Series
- B. Closed Composite Aluminum & Steel Server & Network Racks - NRA Series

**10 GENERAL ELECTRONICS RACKS**

- A. Single Section Wall Mount Racks
- B. Double Section Wall Mount Racks
- C. Floor Mount Racks - FM Series
- D. Floor mount Racks - NRS1 Series
- E. Table Mount Rack - NRS1 Series

**11 RACK ACCESSORIES**

- A. Locking System
- B. Casters & Levellers, Shelf's
- C. Sliding Shelf's & Extended Leg/ Castors
- D. Cantilever Shelf's
- E. Plinth
- F. Ganging Kit & Angle Pair, Rack Stabilising Kit
- G. Vertical Cable Organiser Loop & Universal Cable Basket
- H. Adopter Kit with Loop
- I. Cable Basket & Modem Racks
- J. Fiber Termination Unit (LIU)
- K. Tower Mount Fans Modules
- L. Gland Plate Module

**12 OUTDOOR CABINET**

- A. Wall Mount Racks - WMOD
- B. Floor Mount Racks - FMOD

**13 OTHER PRODUCTS**

- A. Lab Tables & ESD Accessories
- B. Customized Racks
- C. Grounding and Bonding Products
- D. Telecom Racks
- E. DC Power Distribution Board

**1A ORDERING MATRIX**

1

## DATA CENTRE SOLUTIONS & AIRFLOW MANAGEMENT

- A. Hot Air Corridors - HAC
- B. Cold Air Corridors - CAC
- C. Thermal Management
- D. Air Diverter Solution
- E. Brush Modules
- F. Enhanced Cooling
- G. Air Seal Kit
- H. Blanking Panels

## Overview

Trends towards consolidation and higher-density computing configurations make the problem of heat management & one of the critical challenges in emerging data centers. Conventional approaches to addressing this problem have focused at the facilities level to develop new cooling technologies or optimize the delivery of cooling.

The last few years have seen a dramatic increase in the number, size, and uses of data centers. Large data centers contain up to tens & thousands of servers and support hundreds or thousands of users. For such data centers, in addition to traditional IT infrastructure issues, designers increasingly need to deal with issues of power consumption, heat dissipation, and cooling provisioning.

### • Challenges

Rack Weight to Static Load Capacity - Deploy more servers in Rack as datacenter floor has limiting factor weight per Sq.mtr

Enhancing the cooling of mission critical equipment by honeycomb perforated doors and Thermal Sealing to minimize hot air cool air mixing.

Rack manufacture to work in tandem with PAC to decide the on Rack and corridor solution

Power availability at Rack - To deploy more servers / Equipment in rack

### • Benefits

Decrease cooling costs. 20% - 40% Big savings in cooling costs.

Increase hardware reliability and Higher MTBF

Decrease response times to transients and emergencies

Increase compaction and improve operational efficiencies

## NetRack Products

- Hot Air Corridors
- Cold Air Corridors
- Brush Tile
- Enhanced Cooling
- Air Seal Kit & Filler Panel

## Corridor Solutions

The corridor concept is based on the principle of separation of hot and cold airflows thus preventing any 'short-circuiting' between hot and cold air which leads to significant efficiency improvements.

This is achieved by enclosing the both ends of the cold aisle are closed using doors for, cold air contentment. In addition all cabinets are fitted with Plinth, Rack Side Thermal Sealing and Blanking Panels between the equipment, in this way the only route for the Cold air is through the equipment.

The advantages are quite clear - the temperature between the bottom and top of the rack is now more constant. Reduction in Hot & Cold Air Mixing.

Today NetRack with 15 Years of experience capable of offering world-class CAC & HAC solutions with Hot Air Chimneys, Accesses to CAC / HAC with PVC Blinds, Sliding Doors and Automatic Slide Door system integrated with Fire management system/ Building management system.

Some of the standard practices have been shown but can be customized to suit customer Requirement.

### Design Concept

The HAC concept is achieved by enclosing both ends of the Hot aisle and are closed using Swing / Sliding Doors or Blinds for cold air containment and the Hot air returns to PAC through remaining area as shown in the Concept Drawing.

In this concept Top panel is Perpendicular to Floor & Installed on the rack Top panel Vertically touches false ceiling, Top panel is composite metal toughened glass / Poly carbonate for Lighting can be customized.

On Cold Aisle side the cabinets are fitted with Plinth, Rack Side Thermal Sealing and Blanking Panels between the equipment, in this way the only route for the Cold air is through the equipment.

- |                          |               |
|--------------------------|---------------|
| 1. Raised Floor          | A. Hot Aisle  |
| 2. False Ceiling         | B. Cold Aisle |
| 3. Rack                  | C. Cold Air   |
| 4. Vertical Panel        | D. Hot Air    |
| 5. Swing / Sliding Doors |               |
| 6. Corridor Blinds       |               |
| 7. PAC                   |               |

## Design Concept - Horizontal Panel with Chimney

The CAC concept is achieved by enclosing both ends of the cold aisle and are closed using Swing / Sliding Doors or Blinds for cold air containment. In addition all cabinets are fitted with Plinth, Rack Side Thermal Sealing and Blanking Panels between the equipment, in this way the only route for the Cold air is through the equipment.

The Hot air returns to PAC through chimney above False ceiling and Plain Door Blocks the Hot air moving to other area. This concept is the best option as per NetTrack.

In this concept Top panel is perpendicular to Floor & Installed on the rack Top panel.

Top panel is composite with metal and toughened glass / Poly carbonate top Panel for lighting in corridor area can have provision for FM 200 / NOVEC lines. Smoke and other required sensors as per data centre standards.

- |                          |               |
|--------------------------|---------------|
| 1. Raised Floor          | A. Hot Aisle  |
| 2. False Ceiling         | B. Cold Aisle |
| 3. Rack                  | C. Cold Air   |
| 4. Chiminy               | D. Hot Air    |
| 5. Top Panel             |               |
| 6. Swing / Sliding Doors |               |
| 7. Corridor Blinds       |               |
| 8. PAC                   |               |

### Design Concept - Horizontal Panel without Chimney

The CAC concept is achieved by enclosing both ends of the Cold aisle and are closed using Swing / Sliding Doors or Blinds for cold air containment. In addition all cabinets are fitted with Plinth, Rack Side Thermal Sealing and Blanking Panels between the equipment and route the cold through the equipment.

The Hot air returns to PAC through remaining area as shown in the Concept Drawing.

In this concept Top panel is perpendicular to Floor & Installed on the rack Top panel.

Top panel is composite metal toughened glass / Poly carbonate top panel for lighting in corridor area can have provision for FM 200 / NOVEC lines. Smoke and other required sensors as per data centre standards.

- |                          |               |
|--------------------------|---------------|
| 1. Raised Floor          | A. Hot Aisle  |
| 2. False Ceiling         | B. Cold Aisle |
| 3. Rack                  | C. Cold Air   |
| 4. Top Panel             | D. Hot Air    |
| 5. Swing / Sliding Doors |               |
| 6. Corridor Blinds       |               |
| 7. PAC                   |               |

## Design Concept - Vertical Panel with Chimney

The CAC concept is achieved by enclosing both ends of the Cold aisle and are closed using Swing / Sliding Doors or Blinds for Cold Air containment. In addition all cabinets are fitted with Plinth, Rack Side Thermal Sealing and blanking panels between the equipment, in this way the only route for the Cold air is through the equipment.

The Hot air returns to PAC through Chimney above False ceiling and Plain Door Blocks the hot air moving to other area. This concept is the best option as per NetRack.

In this concept Top panel is perpendicular to Floor & Installed on the rack top panel vertically touches false ceiling, Top panel is composite metal toughened glass / Poly carbonate for Lighting can be customized.

- |                          |               |
|--------------------------|---------------|
| 1. Raised Floor          | A. Hot Aisle  |
| 2. False Ceiling         | B. Cold Aisle |
| 3. Rack                  | C. Cold Air   |
| 4. Chiminy               | D. Hot Air    |
| 5. Top Panel             |               |
| 6. Swing / Sliding Doors |               |
| 7. Corridor Blinds       |               |
| 8. PAC                   |               |

### Design Concept - Vertical Panel without chimney

## Introduction

The Servers and Equipments used in Data Centre Solutions and Server Rooms generate a lot of heat and when these equipments are housed in the rack, manufacturer has to provide a system to take out the hot air and allow more cool air to enter front side of the Racks.

## Overview

As explained in above drawing, the servers and equipments will breathe Cool air from Front side and exhaust from the back side this forced cooling happens through suction (Front) and exhaust (Back) fans provided inside the Server / Equipments by OEM. The air acts as a heat transfer media to take out the heat from the internal components to the outside of the equipment.

We at Netrack constantly working on increasing the Cool air flow inside the rack and exhaust the hot air and we have come out with below solutions to meet various site conditions and requirements.

NetRack understands challenges in high-density computing as this increases heat in the rack and Data Centre. Netrack Thermal management solutions are designed to handle large heat generated by IT equipments and servers, by improving airflow in the racks and also by preventing the mixing of Cool and Hot air. This ensures that your mission critical equipment runs cool with more reliability with an increased MTBF, saving energy costs and capital cost on the AC plant.

The Ready Accessories and solutions are,

- a) Brush Tile
- b) Brush Module for Cable Entry & Exit
- c) Air Seal Kit
- d) Front Filler Panels
- e) Enhanced Rack Cooling
- f) Hot & Cold Corridors
- g) Air Diverter Solutions

All Products Design to reduces bypass of airflow and increases under-floor static pressure which in turn will help increase the cooling efficiencies, reduces running and infrastructural costs. Helps to promote Hot Aisle / Cold Aisle best practices and improves air cooling performance and reduces carbon footprint.

Overview

Air Diverter systems are designed carefully to Manage cooling requirements of side airflow Equipments, such as Cisco Nexus switch. The biggest challenge in the Data Centre will be managing cross airflow, This will create thermal short circuits and hot air blockages.

NetRack after carefully studying and understanding the challenge designed 2 systems Pair one for cold air SUCTION and other for Hot air EXHAUST, Powder coated in Blue ( Cold air) Red ( Hot air) for identification.

- Air Diverter KIT/Passive
- Air Diverter KIT/Active
- Air Diverter Frame/Passive
- Air Diverter Frame/Active

In passive The COLD AIR SUCTION IS FROM FRONT SIDE AND HOT AIR EXHAUST AT BACK SIDE by equipment fans.

In active, COLD AIR SUCTION IS FROM FRONT SIDE AND HOT AIR EXHAUST AT BACK SIDE by Air diverter Kit/ Frame FANS along with equipment fans to enhance air flow...

**Overview**

Standard all Raised Floor made of 2X2 Feet Tiles installed on Grid Frame, NetRack offers ready to use Brush Tile 2X2 feet has 75X450-3 No cutout with high quality Nylon high density brush to reduce Cold air leakage. Tile can be swapped with existing conventional tile at required area to get below advantages-

- Reduces cold air leakages
- Eliminates pollution during tile cutting
- Eliminate cable damages due to bad tile cutting
- Easiness of relocation the tile

## Overview

Moulded Brush Modules are ready made solutions to avoid air flow leakage at raise flow & available in different sizes and shapes to suit site requirements.

## Features

- Double Layered Engineered Sealing System - Brush upper & EPDM lower gasket
- Unique Air - Guard overlapping better seal Nylon 6 Brush System
- Integrated Safety Cover
- Manufactured from high strength, flame retardant ABS and V0 rated nylon brush and EPDM.
- Easy to install.
- RoHS compliant.

**Overview**

To increase Cold air entry from front side and Exhaust Hot air at back side rack NetRack offers, Inlet Blower Module, Roof Blower Module and Back Door Blower Modules

Inlet Blower module will be installed in front bottom side of Rack available up to 600 CFM This will push cold air in to the rack and will be associated with Front Glass Door, Air seal kit, Front Filler Panels, with back Door and Roof Enhanced cooling based on Heat Load on the Rack.

**Model Matrix & Dimensions**

Description	Part No.	No. of Fans	Mounting	RU Space	Air Flow-CFM
Inlet Blower Module	IBM-600	3	Bottom Side	0	600CFM

Roof Blower module will be installed in Top back side of racks available 400 to 1300 CFM with chimney. This will exhaust hot air from rack and will be associated with Front perforated Door, Air seal kit, Front Filler Panels, with back door enhanced cooling, based on Heat Load on the rack

### Model Matrix & Dimensions

Roof Blower Module/1300 CFM/ Adjustable Chimney	RBM-1300-AC	Top Cover	0	650/2

**Air-seal Kit & Blank Panel**

This will minimize Hot & Cold air Mixing / short circuit and divert the air to enter mission critical equipments. This will be critical accessory for datacenter Racks to increase the efficiency of Thermal management.

Air-seal Kit will cover front sides and top. The filler panels will cover the front side unused equipment mounting area.

Model Matrix & Dimensions		
Description	Part No	Material
Blank Panel/1U/ Pk of 5	BP-1-5	CRCA Steel, Formed & Powder Coated
Blank Panel/2U/ Pk of 5	BP-2-5	
Front Air seal Kit/42/600/ Type1	ASK-42-600-001	
Front Air seal Kit/42/800/ Type1	ASK-42-800-001	
Front Air seal Kit/42/600/ Type2	ASK-42-600-002	
Front Air seal Kit/42/800/ Type2	ASK-42-800-002	

## Overview

Tool-less blanking panel designed to install & uninstall the Panels quickly, compared to conventional Screwed Blanking panel. The function will be to prevent of air flow to the unused rack space & avoid Thermal short circuite will be used with Air Seal Kit

## Features

- Highly effective to seal Unused Rack Space and prevents Thermal Short Circuit.
- Easy to install and removal with built-in finger grips.
- Can be used with square-punched, round or tapped Mounting rails.
- Stackable for easy storage.
- Made from a durable, lightweight plastic material and RoHS compliant.
- Available in 1U and 2U Variants.
- Enhances Looks and Aesthetics of the Racks.

## Model Matrix & Dimensions

Description	Part No	Material
Blank Panel/1U/ Pk of 5/ Tool Less	BP-1-5-TL	High Impact Polystyrene UL 94 HB Fire Rating 150° F (65.6° C) Maximum Operating Environment
Blank Panel/2U/ Pk of 5/ Tool Less	BP-2-5-TL	High Impact Polystyrene UL 94 HB Fire Rating 150° F (65.6° C) Maximum Operating Environment

OEM - BLOCKHOT / HOTLOK

# 2

## HIGH DENSITY CLOSED RACK SOLUTIONS

- A. Closed High Density Server Racks NRSe Series
- B. Closed High Density Server Rack with Seismic Rating NRSs Series
- C. Closed High Density Network Racks - NHDC Series

**Overview**

NRSe Series - Ultra rigid Enhanced Racks for high density application in data centers & server room. The Racks are manufactured out of steel sheet punched, formed, welded and powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard for Racks configuration will be welded ultra rigid frame with 4 No. pillars of 14 Gauge steel sheet 6 folded profile welded to top and bottom ribbed /reinforced frame additionally supported depth wise by welding 6 No. depth rail 4 folded 75mm 16 Gauge profile. Associated with Top cover having provision for mounting Exhaust Blower and Adjustable Duct for free exhaust of Hot Air through false ceiling to PAC unit, Front Convex perforated steel door with lock & key and Back perforated /plain dual steel door with lock & key and Plain dual side panels. Free standing on plinth.

Rack Display Unit - 144 X 33 mm,  
32 Charecters in 2 line Programmable.  
Part No. RDU 001

Available in 42RU ~ 52RU Variants with 1000 & 1200 Depth configurations and 600 Width configurations.

NRSe-600 Wide Series Configurator Drawing with Critical Parts

1. Rack Frame
2. Plinth
3. Blank Panel
4. Front Air Seal Kit
5. Perforated Door / Convex
6. Perforated Door / Dual
7. Metal Door
8. Side Panel / Dual
9. Universal Cable Basket
10. Power Distribution Unit
11. Brush Module Bottom / Top
12. Roof Blower Module / Adjustable Chimney
13. Brush Module Side Panel

## eNhancements

- eNhanced Thermal management with Air Seal Kit and Blanking Panels & Bottom Brushed access eNhanced Grounding & Bonding
- eNhanced to add High Density Cable Frame
- eNhanced for Alpha Numeric Rack Display system on Front Door
- eNhanced for CAC or HAC
- eNhanced for Roof Blowers with adjustable Chimney (400 to 1350 CFM)
- eNhanced for Back Door Blowers (800 to 1950 CFM) (Optional)
- eNhanced for Intelligent Locking and Rack Monitoring

## Features

- Conforms to DIN 41494 or Equivalent EIA /ISO / EN / CEA Standard
- Adjustable mounting depth
- 4 No adjustable, 19" Verticals with punched 10mm Square Hole and Universal 12.7mm-15.875mm-15.875mm alternating hole pattern, offers greater mounting flexibility, maximizes usable mounting space.
- Numbered U positions
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard)
- Powder coated finish with Seven tank pretreatment process meeting ASTM standard

Technical Data:	
Basic Frame	Steel folded
Construction	Welded
Top & Bottom Cover	Bolted to Frame with required cut outs.
Front Door	Lockable Convex Perforated Steel Door
Rear Door	Lockable Perforated / Plain Steel Dual Door
19" Mounting Angle	Formed Steel
Std. Equipment Mounting	DIN Std. 10 mm Sq. Slots
Standard Finish	Powder coated
Standard Colour	Texture Black
Standard Mounting	Free standing on Plinth
Rack Standard	Conforms to DIN 41494 or equivalent standard
Static Load	1500 Kg

## Overview

HDCF Series - Ultra Rigid Enhanced High Density Cable Frame designed to manage High Volume Vertical & Horizontal Cables in data center, generally same can't be managed with 600 Wide Racks. To ease the design of Data center NetRack comes through a break through Innovation which can be Installed in between or end of racks.

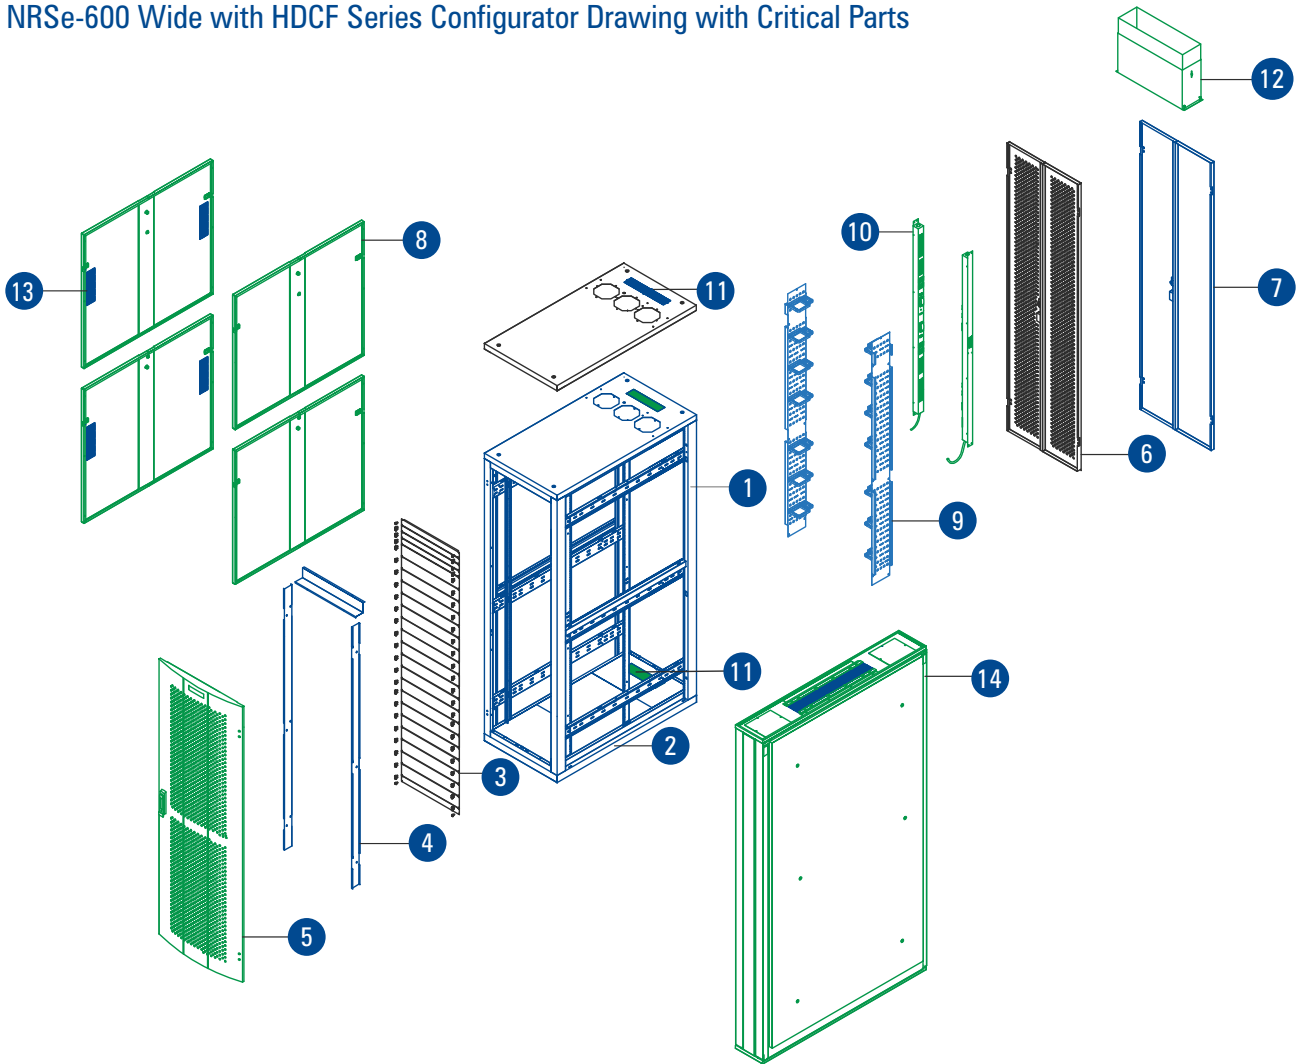

The Racks manufactured out of steel sheet punched, formed, welded and powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard configuration will be frame with door on Front and Back with Slam Latch and Lock & Key, equipped semicircular ABS Loops & Spools for cable management.

Available in 42RU ~ 52RU Variants with 1000 & 1200 Depth configurations and 6, 8, 12 Inch Width configurations.

CLOSED HIGH DENSITY SERVER RACK  
WITH SEISMIC RATING

**NRS<sub>s</sub> SERIES**

## Overview

NRSs (seismic) Series - Ultra rigid racks for high density application in data centers & server rooms specially designed for seismic zone. The racks manufactured out of steel sheet, punched, formed, welded and Powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard for racks configuration will be welded to ultra rigid frame with 4 no pillars of 14 Gauge steel sheet 5 folded profile welded to top and bottom ribbed/ reinforced frame additionally supported depth wise by welding 6 no depth rail 4 folded 75mm 14 Gauge profile & diagonally reinforced by 4 no of 4 folded 50mm 14 gauge profile. Associated with vented top cover with fan mounting provision Front Glass or perforated Metal Door with Lock & Key and Back Vented / Perforated Metal Door with Lock & key and partially vented or Plain side panels 1200 deep rack will be configured with dual side panel. Braced to floor/ raised floor with bracing bolts and additionally braced on top by runway to rigid wall OR Pillar

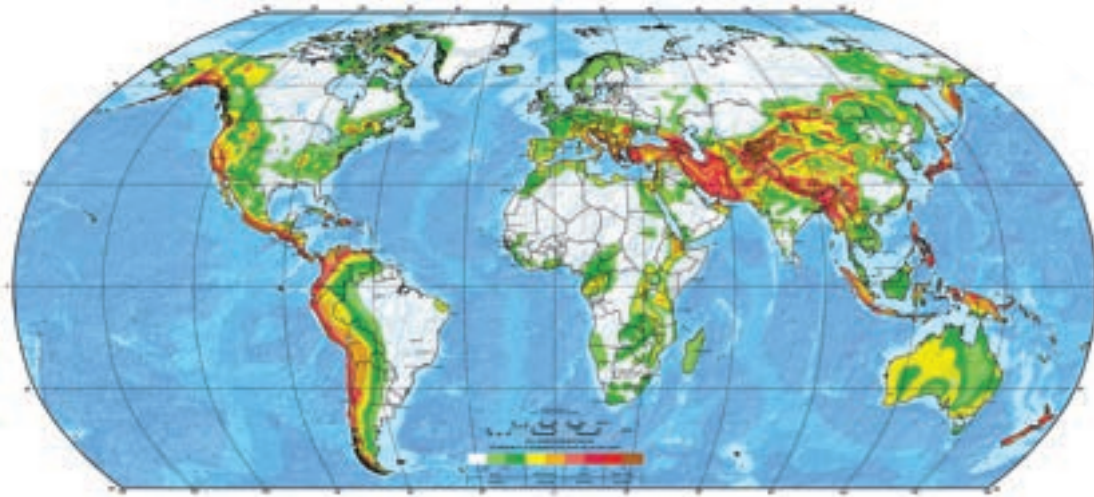

Available in 42RU~47RU Variants with 650, 800, 1000 & 1200 Depth configurations 600 & 800 Width configurations.

### What is Seismic Zones?

Seismic Rack standards are often specified in terms of the earthquake risk zones. Zones vary from 0 to 4, 0 Zone designating no substantial risk, zones 3 and 4 are generally the regions where Seismic Racks are Required

### Seismic Zones

### What is Seismic Rack?

Manufacturing the Rack & Enclosures understanding above Seismic Zone requirements and designing through FEA ( Finite Element analysis. According to Telcordia (formerly Bellcore) GR-63-CORE Network Equipment Building System (NEBS) requirements for physical protection.

### Displacement Distribution

**Note:** A Telcordia GR-63-CORE compliant test can be conducted by recognised independent laboratory. This test is conducted on an installation-specific basis with customer - installed equipment and cabling mounted inside.

| 4. 19" Adapter Kit / Closed Door | 9. Front and Rear Bracing |
| 5. Perforated Door / Convex      |                           |

### Features

- Conforms to DIN 41494 or equivalent EIA / ISO / EN standard
- **Designed to NEBS™ Zone 4 via Telecordia GR-63-CORE**
- Adjustable mounting depth
- 4 No Adjustable, 19" verticals with punched 9mm Square Hole and Universal 12.7mm-15.875mm-15.875mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space.
- Numbered U positions,
- Universal 25MM Pitch Holes For ETSI Standard Racks
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard for equipments)
- Powder coated finish with Seven tank pretreatment process meeting IS
- Grounding & Bonding Options
- Earthing continuity Kit
- 2 or 4 Fan module Mount Provision on top cover

### Accessories:

- Fixed Shelf
- Cable Organisers
- Cantilever Shelf
- Fans and Fan Modules
- Sliding Shelf
- Rack Ground Kit
- Key Board Shelf
- Plinth
- Power Distribution Units
- Cable Basket

Technical Data:	
Basic Frame	Steel folded
Construction	Welded
Top & Bottom Cover	Welded to Frame with Cable entry exit cut outs.
Front Door	Lockable Perforated steel Door Plain /Vented
Rear Door	Lockable Perforated steel Door Plain /Vented
19" Mounting Angle	Formed Steel
Standard Finish	Powder coated
Standard Colour	Grey & Off White OR Black
Standard Mounting	Braced to Floor/ Raised Floor with Bracing Bolts
Rack Standard	Conforms to DIN 41494 or equivalent standard
Static Load	1500Kg
Seismic Load	750Kg

Note: Other Colour Powder Coating,  
Etsi Std. Racks and other Models can be manufactured on Request.

**CLOSED HIGH DENSITY  
NETWORK RACKS  
NHDC SERIES**

## Overview

NHDC Series- are High Density Closed Racks Enhanced to Handle High Volume of Cable where in customer corporate policy insists on Closed Racks. The Racks manufactured out of formed steel frames & profiles, welded and Powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard for Racks configuration will be all Steel CKD Design, additionally supported depth wise by welding 6 no 4 folded profiles. Associated with top cover having provision for mounting fan modules and unique cable entry and exit cut outs to handle High density Cables, Front and Back perforated metal Dual door with lock & key and Plain/ Vented dual side panels. Free standing with plinth.

NHDC Racks are supplied with high density Cable Frames 2 No of 6 Inch in 900 wide and 2 No of 8 Inch in 1000 Wide.

Available in 32RU~52RU Variants with 800, 1000, 1200 Depth configurations and 900,1000 width configurations.

NHDC Series Configurator Drawing with Critical Parts

Features

- Conforms to DIN 41494 or Equivalent EIA / ISO / EN Standard
- Adjustable mounting depth
- 4 No. Adjustable, 19" verticals with punched 10mm Square Hole and Universal 12.7mm – 15.875mm – 15.875mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space
- Numbered U positions
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard)
- Powder coated finish with Seven tank pretreatment process meeting IS

Accessories:

- Shelf
- Shelf/Key Board
- Shelf/Sliding
- Angle Pair
- Cantilever Shelf
- Power Distribution Units

Technical Data:	
Basic Frame	Steel Folded
Construction	CKD Type
Top & Bottom Cover	Bolted to Frame with Required Cut Outs
Front Door	Lockable Perforated Dual Steel Door
Rear Door	Lockable Perforated Dual Steel Door
19" Mounting Angle	Formed Steel
Std. Equipment Mounting	DIN Std. 10mm Sq. Slots.
Standard Finish	Powder Coated
Standard Colour	Grey & Off White OR Black
Standard Mounting	Free Standing on Plinth
Rack Standard	Conforms to DIN 41494 or Equipment Standard
Static Load	1500

## INTELLIGENT RACKS & COOLING SOLUTIONS

- A. iRack - Self Cooled, Self Powerd & Self Contained Rack
- B. Enclosures Cooling Solutions

## Overview

iRack Series, a Self Cooled, Self Powered & Self Contained Rack

Trend towards having Intelligent Infra Capsules on Premises at Banking & Insurance Sector, Warehouses, Manufacturing sector & Educational Institutions made the Rack manufactures to think on concept of iRack. Thanks to Technology, which made the concept a reality today

The Racks manufactured out of steel sheet punched, formed, welded and powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard for Racks configuration will be welded ultra rigid frame with 4 No. Pillars of 14 Gauge steel sheet 6 folded profile welded to top and bottom ribbed /reinforced frame additionally supported depth wise by welding 6 No. depth rail 4 folded 75mm 16 Gauge profile. Front Glass door with lock & key and Back Metal door with lock & key and Plain dual side panels. Free standing on plinth.

To Complete intelligence in iRack NetRack integrate 3Kw PAC Unit, UPS & Battery bank, Intelligent PDU for Power, Surveillance & environmental management, KVM & Console for server management, Intelligent Rack access for physical security will complete full fledged iRack Configuration..

iRack equipped with Air-seal Kit, Blanking panels, Brush models and panels for complete Airflow management.

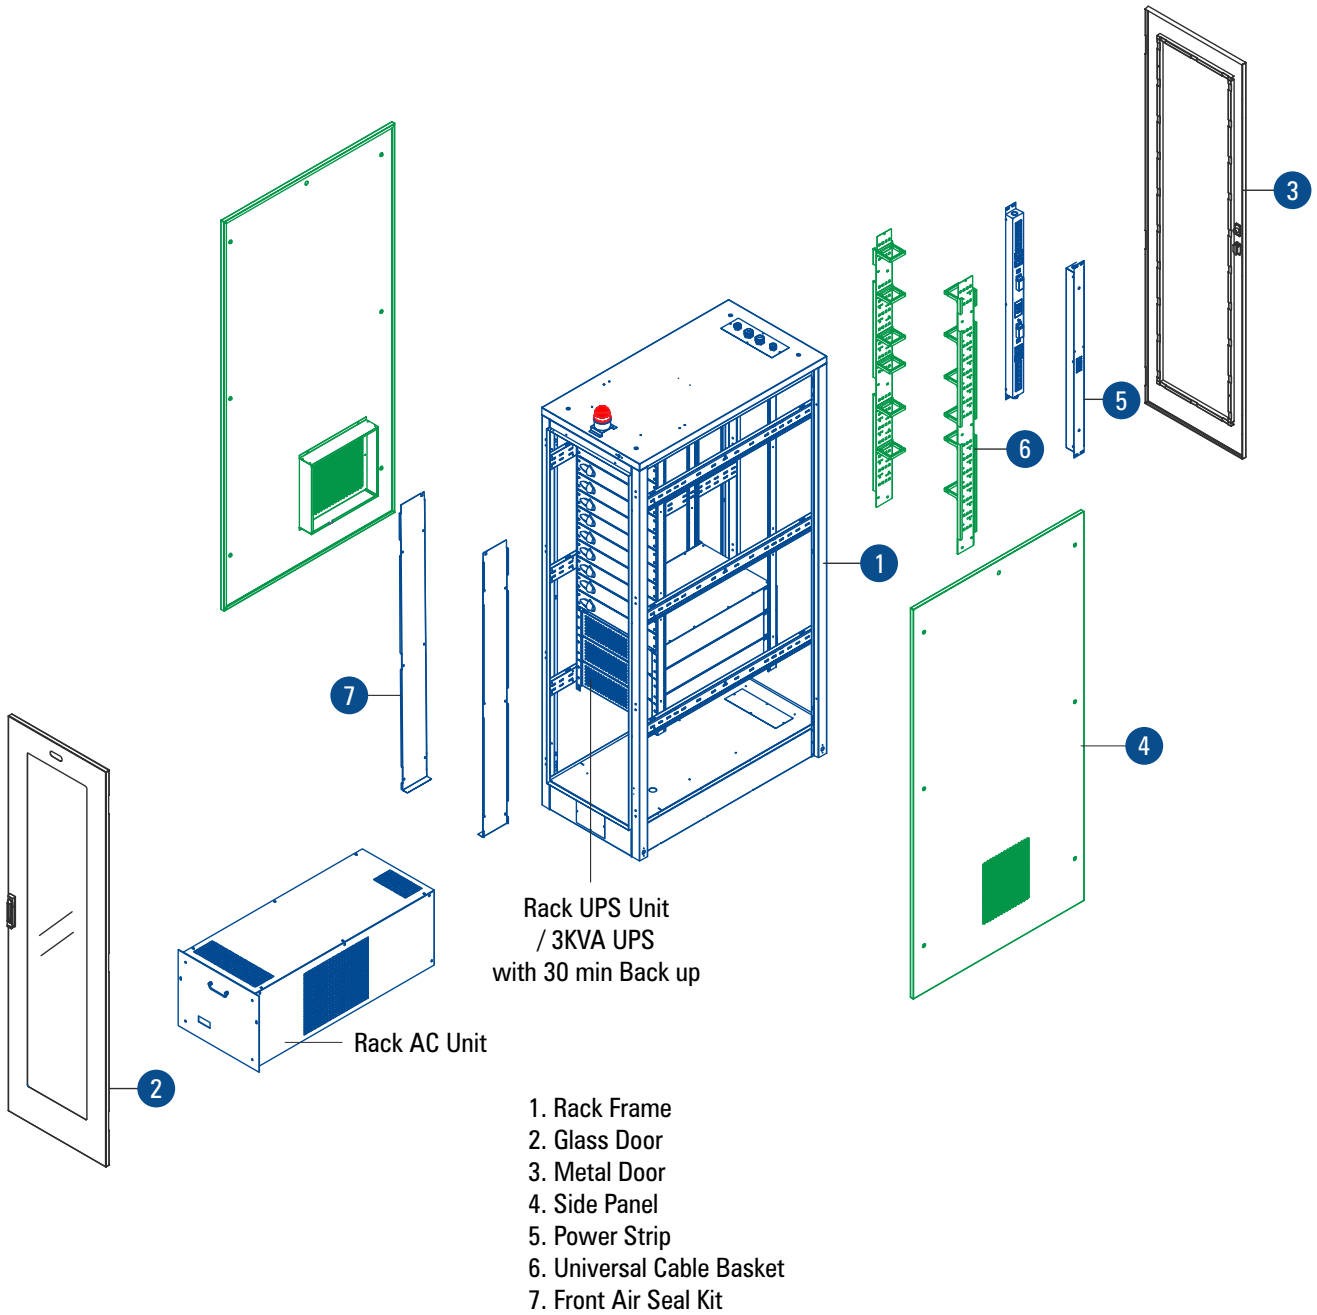

Available in 42RU Variants with 1200 Depth Configurations and 600 & 800 Width Configurations.

Sectional Side View

1. Completely Contained
2. IP 50 for Dust Protection
3. Airseal Kit & Blank Panel for Airflow Management
4. Gland Module for IP 50 Cable Entry & Exit
5. 3.25 Kw / PAC Unit

iRack Series Configurator Drawing with Critical Parts

Features

- Precision Cooling unit
- UPS & Battery Bank
- Intelligent PDU for Power
- Surveillance & environmental management
- KVM & Console for server management
- Intelligent Rack Access for physical security
- STS for Power redundancy
- Alert /alarm in the event of temp high or low
- Rack carefully designed and configured as self contained with minimal cold air losses and thermal short circuit

Note: For cable entry / exit refer page No 234

### Specifications

Rack Load Capacity	1000 KG
Rack U Space	30 U
Rack Dimension	2100X600x1200
Cooling Capacity	2.5 KW
UPS Capacity	3KVA
UPS Back Up	30/60 Min
Rack Access Control	Available
Camera Based Surveillance	Available
Intelligent PDU	Available
Intelligent Climate Monitoring	Available
Analogue / Digital KVM	Available
Intelligent Asset Management	Available

# ENCLOSURES COOLING SOLUTIONS

**Overview**

Cooling of mission Critical IT equipments is very important and critical. Real challenge will be in the place where room is not air conditioned OR only comfort AC Installed and creating the AC for room will be very expensive and most of the time this may not required and not possible, typical examples are will be Ware-House, Shop-Floor, Cafeterias and So On.

To meet this challenge, NetRack offer 0.7 KW to 7 KW Panel Mount AC systems can be mounted on side panel or Front & Back Doors. Based on the site requirement and conditions the position of AC can be configured. Interestingly we can mount AC from XXU to 42U preferably on floor mount but 600 Watt Panel AC can be mounted on wall mount also.

Specifications	
Cooling Capacity	0.7 KW to 7KW
Rated Temperature	28 Deg C
Temperature Stability	2 Deg C
Operating Ambient Temperature	10 - 50 Deg C
Refrigerant	R 134a

Panel Mount AC Airflow Management

Panel Mount AC Configurator Drawing with Critical Parts

## Features

- Enclosure will be IP50 protected and IT equipment's are protected against Dust
- Complete AC unit outside enclosure will ease the installation & maintenance
- Digital Display for quick review
- Eco-friendly refrigerant, R134a
- CE certified
- Simple implementation through an integrated design
- Easy to Operate and maintain

Model Matrix & Dimensions			
Cooling Capacity	H	W	D
0.7 KW	550	300	250
1 KW	700	350	275
1.7 KW	950	335	215
2.3 KW	1400	400	275
3.4 KW	1400	400	275
7 KW	1550	500	400

Note: Dimension are in MM

## ACOUSTIRACK SOLUTIONS

A. Sound Proof Cabinet -  
Active Noise Cancellation

## Overview

### AcoustiRACK™ Active – Server Room in a Cabinet

The AcoustiRACK™ ACTIVE (ARA™) is a soundproof, cabinet providing unprecedented levels of noise reduction up to 30 dB(A) with 8 KW of heat dissipation and dust protection for 19-inch servers and networking equipment. When combined with unique, high-quality acoustic materials, the ARA™ achieves previously unattainable spatial noise reduction over the entire frequency bandwidth of the audible spectrum.

Extreme energy consumption is the number one challenge facing data centers today. Using the ARA™, companies are freed from paying exorbitant energy bills to hyper-cool dedicated server rooms just to avoid equipment burnout. Employees are no longer faced with the myriad of physical and psychological ills associated with exposure to chronic noise pollution.

Available in 32RU & 42RU Variants with 1200 Depth Configurations and 600 width configurations.

## Benefits

- Gain the competitive edge – Offer your products without noise
- Green your IT- Eliminate noise pollution and consume less energy
- Instant ROI - Heat dissipation of upto 8 KW allows you to reset the thermostat to a normal level, dramatically reducing your electric bill. The ARA™ eliminates the need for dedicated server room so you can reclaim valuable square footage
- Extends the life of your equipment – Constant temperature maintenance prevents machine burnout
- Improve productivity - Employees work better due to a quieter, less stressful environment

The Active Silencer Fan Tray™ (ASFT™) is a fan drawer, designed for assisting ventilation by forcing air into and out of an enclosure, while preventing noise from escaping.

Reduced Noise Pollution Achieved By ARD™

Model Matrix & Dimensions								
AcoustiRack Series	H	h	W	w	D	d	Caster Type	Plinth Height(mm)

Description	Height (mm)
TYPE-3	105

The unit is lined with acoustic material and equipped with Silentium's proprietary noise-cancelling technology which is highly effective in reducing low frequency noise. When combined with unique high quality acoustic materials this product achieves unprecedented spatial noise reduction over the entire frequency bandwidth of the audible spectrum.

This product is the most advanced solution for the growing IT noise problems faced by today's workforce. The ASFT™ reduces the auxiliary fans noise and the left installed equipment noise to the surrounding noise level.

## ARA™ Air Flow Characteristics

The ARA™ airflow design considerations were made to enable maximum noise reduction by using hybrid means. Simultaneously, the chance of inflicting damage to enclosed equipment is reduced by preventing hotspot and dissipating maximum heat under the constraint of keeping minimum total cost of the rack ownership.

Cool air is suctioned in through a fan tray at the bottom of the ARA™. The air is directed to the front of the unit, whereas a cool wall of air is formed and then flows through the equipment to the rear of the cabinet. The newly warm air is emitted out from the front of the cabinet through a second fan tray positioned at the top. This keeps continuous flow of fresh air through the ARA™ cabinet. The advantages of this design allows the user to place the rack close to a wall, high flexibility and save valuable space.

ARA™ Air Flow Characteristic

## ARA™ 830 Technical Details

- Up to 30dB(A) broadband noise reduction
- Two Dustproof fans (each 24VDC)
- 360 CFM for each fan in free air, cumulative airflow is approx. 700CFM
- Soundproofing materials lining within significantly reduce the fan motor & installed equipment high frequency noise to approx. 30dBA
- Anti-vibration soft fan gasket
- Thermocouple fan speed control - the ASFT™ provides the customer with flexible airflow control
- Dimensions: 4U, 830(L)x445x(W)mm
- Power: 24v, 220W
- Input Socket: DC Connector
- CE, FCC compliance

5

## OPEN RACK SOLUTIONS

- A. NAOR 2 Post Series
- B. NAOR 4 Post Series
- C. NRFS Series
- D. NRS & NRA 4 Post Open Frames  
(600 & 800 Wide Racks)

## Overview

NAOR - 2 Post Series are Ultra rigid Racks for high density application for networking / labs / data Centres. These Racks are made of rugged aluminum profiles, individually powder coated and bolted with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system.

Standard for Racks configuration will be bolted frame with 2 or 4 Post. 4 Post will have adjustable Steel folded depth members to adjust the depth to meet site requirements. Available in 22RU~52U variants.

Standard U Marking

## Features

- Conforms to DIN 41494 or Equivalent EIA / ISO / EN Standard
- High-strength, lightweight 6061-T6 aluminum extrusion constructions
- Two top angles and heavy-duty assembly hardware for a stronger rack to handle heavier loading
- 25 No. M6 mounting screws with combination Phillips/ straight heads and pilot points to reduce cross threading and installation time
- Unique packaging inserts eliminate damage from components hitting together in the carton during shipping and handling.
- Ease of assembling by high quality fasteners.
- Universal 12.7mm-15.875mm-15.875mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space
- Numbered U positions
- Panel Mounting Holes: M6 threads in both flanges
- Powder Coated or anodized provide a uniform appearance and protection against aluminum oxidation corrosion
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- Conductive M6 tapped DIN standard holes -100% assured conductivity within the rack. Eliminate separate grounding strip.
- Heavy duty bottom (160X60X8Th) MM & top angles (38X38X4.8Th) MM and C frames (32X75X5Th) MM to ensure up to 1500Kg static load capacity
- Custom configurations and assemblies available by special order
- Assembly hardware is included
- Weight capacity of 1500Kg Static (weight must be evenly distributed)

NRFS Series  
NRS & NRA 4 Post Open Frames

## Overview

NRFS - 4 Post Series are Rigid racks designed for Combined Networking & Equipment Mounting, Server or for Lab application which requires 4 post frame with low, medium or high density cable management. The Racks manufactured out of steel sheet punched, formed, welded and powder coated with highest quality standards under stringent ISO 90012008 Manufacturing & Quality management system to ensure highest quality product.

Standard for Racks configuration will be welded rigid frame with 4 no Pillars of 14 Gauge steel sheet 5 folded profile welded to top and bottom cover additionally supported depth wise by welding 6 No. depth rail 4 folded 75mm 16 Gauge profile with optional side panels. Recommended to grout on floor with plinth.

Available in 42RU~52RU Variants with 800 & 1000 Depth configurations and 600 Width configurations

NRFS 4 Post Series Configurator Drawing with Critical Parts

**Features**

- Conforms to DIN 41494 or Equivalent EIA / ISO / EN / CEA Standard
- Adjustable mounting depth
- 4 No Adjustable, 19" verticals with Punched 10 mm Square Hole and Universal 12.7mm-15.875mm-15.875mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space
- Numbered U positions
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard for equipments)

**Note:**

1. ETSI Std. Racks and other models can be manufactured on request
2. It is recommended to distribute the Load along with U space in the Rack
3. Dimension are in MM

**Abbreviations**

H - Overall height    h - Usable height    W - Overall width    w - Usable width    D - Overall depth    d - Usable depth

Overview

NRS Series standard for Racks configuration will be welded frame with 4 No. Pillars made of formed steel profile welded to top and bottom ribbed / reinforced frame additionally supported depth wise by 6 No depth rail 4 folded profile. Free standing on floor with 4 No casters wheels with 2 Nos. with brakes and 2 Nos. without brakes & with levelers or plinth.

NRA Series standard for Racks configuration will be bolted frame with 4 No. Pillars made of aluminum extruded profile bolted to top and bottom ribbed / reinforced frame additionally supported depth wise by 6 no depth rail 4 folded profile. Free standing on floor with 4 No casters wheels with 2 Nos. with brakes and 2 Nos. without brakes & with levelers or plinth.

Standard U marking

Available in 42 RU Variants with 650, 800,1000 & 1200 Deep configurations and 600 Width configurations.

NRS/NRA - 4 Post 600 Wide Rack Configurator Drawing with Critical Parts

**Features**

- Conforms to DIN 41494 or Equivalent EIA /ISO / EN / CEA Standard
- Adjustable mounting depth
- 4 No Adjustable, 19" verticals with Punched 10 mm Square Hole and Universal 12.7mm-15.875mm-15.875mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space.
- Numbered U positions
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard for equipments)
- Powder coated finish with seven tank pretreatment process meeting ASTM standard
- Grounding & Bonding Options
- Fan module Mount provision on top cover

**Accessories:**

- Fixed Shelf
- Cantilever Shelf
- Sliding Shelf
- Key Board Shelf
- Power Distribution Units
- Cable Organisers
- Fans and Fan Modules
- Rack Ground Kit
- Plinth
- Casters
- Levellers
- Cable Basket

Technical Data:	
Basic Frame	NRA - Composite (Aluminium Section & Steel), NRS - Steel folded
Construction	NRA - CKD Type, NRS - Welded OR CKD design
Top & Bottom Cover	Bolted to Frame with Cable entry exit cut outs
19" Mounting Angle	Formed Steel
Std. Equipment Mounting	DIN Std. 10mm Sq. Slots
Standard Finish	Powder coated
Standard Colour	Grey & Off white OR Black
Standard Mounting	Caster wheels (2 with Brake & 2 without Brake) OR Levelers OR Plinth
Rack Standard	Conforms to DIN 41494 or equivalent standard
Static Load	750Kg with casters, 1250Kg with Levelers / Plinth

## HIGH DENSITY CABLE MANAGEMENT SOLUTIONS

- A. High Density Vertical Cable Organisers HDVCO Series
- B. High Density Horizontal Cable Organisers - HDHCO Series

Overview

HDVCO Specially designed to meet the challenges of high density cable management due to increase of cable volume and more due to introduction of angular jack panel.

Cable organizer frame manufactured out of steel sheet punched, formed, welded and Powder coated and Doors made of aluminum sheet punched formed and powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard configuration will be 6 Inch, 8 Inch, 12 Inch & 15 Inch with unique double hinge door on Front & Back, ABS semicircular finger module & ABS spools for cable management. Available in Front & Front & Back Variants.

HDVCO Series Configurator Drawing with Critical Parts

**Features**

- Composite construction basic frame-Steel powder coated and fingers made of ABS for high strength to carry large quantity cables.
- Cable spools and Slots in centre support member for large quantity cable management.
- Semicircular ABS fingers assure no cable damage.
- Unique double hinge design door at front and back to open door from left to right or right to left for easy cable management.
- The vertical cable organiser free standing on floor and bolted to open rack for better alignment and aesthetic looks.

### Overview

HDHCO Specially designed to meet the challenges of high density cable management due to increase no. of patch panel per Rack and also introduction of angular jack panel

Cable organizer composite of Aluminum and ABS with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard configuration will be 2U, 3U & 4U with ABS finger module for cable management with unique double hinge door Available in Front or Front & Back Variants

## CABLE MANAGEMENT & UNIVERSAL RUNWAY SOLUTIONS

- A. Universal Runway Systems
- B. Universal Runway Accessories
- C. Runway Kits
- D. Vertical and Horizontal Cable Organizers

## Overview

Cable Runway is vital part of cable management of horizontal & backbone cable in IT infrastructure. NetRack offers Runway & accessories, which are completely modular, made of Special profile steel tube with high strength and low weight to minimize deflections with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard Runway available in 12, 18, 20 & 24 Inch configuration to handle different volume of cables NetRack Offers complete range of accessories to fix the Runway above the rack or on the Rack or Below the ceiling and complete management.

## Features

- High-quality construction and design
- Better control on proper cable bend radius
- Reduces cable damage
- Completely modular better aesthetics in cable management

Model Matrix & Dimensions

Description	Part No.	Construction
Ceiling Mount Kit 1Mt/Type 1/ 10MM	RWA-006-10	Formed Steel & Powder Coated
Ceiling Mount Kit 1Mt/Type/ 12MM	RWA-006-12	

**Overview**

Patch Rack / Runway specially designed for mounting patch panels on the runway in server rooms, data centre and labs. Racks manufactured out of steel sheet punched, formed, welded and Powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Mounting above Cross Member

**Features**

- Conforms to DIN 41494 or Equivalent EIA / ISO / EN / CEA Standard
- Formed Steel 19" verticals with Punched 10mm Square Hole and Universal 12.7mm-15.875mm-15.875mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard for equipments)
- Powder coated finish with seven tank pretreatment process meeting ASTM standard
- Grounding & Bonding Options
- Universal Clamp Kit for mounting on straight and cross member of runway either above or below the runway
- Standard supply includes Cable Loop 90 X 85 mm for Cable Management

**Model Matrix & Dimensions**

Patch Rack / Runway	Part No.	H	h	W	w	D
Patch Rack/Runway with Universal Mount kit/2U/Powder coated	RWA-013-2-PC	125	2U	514	19	80
Patch Rack/Runway with Universal Mount kit/3U/Powder coated	RWA-013-3-PC	170	3U	514	19	80

Patch Rack/Runway with Universal Mount kit/6U/Powder Coated	RWA-013-6-PC	334	6U	514	19	80

1U = 44.45 mm

Note: Other models can be manufactured on request

## Overview

This is preconfigured kit with 1 No Runway on Rack and 1 No connecting wall to Runway on Rack, with all accessories required to complete the installation. Extensively used in the 2 Post Rack will be used for dropping cable to rack and to support the rack to wall for better rigidity.

Available in 12 inch and 20 inch Kits.

## Features

- Completely Modular and preconfigured
- High-quality construction and design
- Reduces cable damage
- Better aesthetics in cable management

## Model Matrix & Dimensions

Models	Part No	Scope of Supply
Runway Kit-12"	RWK - 12	Runway/12" : 1.5 Metre X 1 & 1 Metre X 1 , Rack Runway Mounting Kit 1, Corner Clamp Kit X 1, End Closing Kit X 2, Joint Clamp Kit X 1, Wall Bracket Kit X 1
Runway Kit-20"	RWK - 20	Runway/20" : 1.5 Metre X 1 & 1 Metre X 1 , Rack Runway Mounting Kit 1, Corner Clamp Kit X 1, End Closing Kit X 2, Joint Clamp Kit X 1, Wall Bracket Kit X 1

## Overview

VCO Specially designed to meet the price challenges of low & medium density cable management where in remain rack space will used for other equipment mounting

Cable Organizer frame manufactured out of Rigid PVC with punched side slots for cable entry / exit with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard configuration will be 4 Inch, 6 Inch, with cover on front or front & back and bracket for mounting on rack. Available in Front or Front & Back Variants.

Vertical Cable Organizer

**Model Matrix & Dimensions**

Description	Part No.
Vertical Cable Organizer/4 inch/Front/45U/ PVC	VCO-45-4-F
Vertical Cable Organizer/4 inch/Front & Back/45U/PVC	VCO-45-4-FB
Vertical Cable Organizer/6 inch/Front/45U/ PVC	VCO-45-6-F
Vertical Cable Organizer/6 inch/Front & Back/45U/PVC	VCO-45-6-FB

## Overview

HCO Specially designed to meet the horizontal cable management challenges of low, Medium & High density application.

Channel type Cable Organizer manufactured out of rigid PVC with punched side slots for cable entry/exit fixed on steel sheet punched back panel and loop type will have ABS loops fixed on steel sheet punched back panel with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard configuration will be 1RU & 2RU with cover on front or Front & Back and Back panel for mounting on rack. Loop type cable organizer will have ABS 4 No. Loops for cable management.

Horizontal Cable Organizer/1U/Loop

## RACK POWER & ELECTRONICS

- A. Normal Power Distribution
- B. Metered Power Distributions
- C. Colored Power Distribution Unit
- D. Power Cords
- E. IEC Lock Power Distribution & Power Cords
- F. Safe Transfer Switch
- G. Intelligent Power Distribution Unit
- H. Power Management Solutions
- I. Intelligent Locking & Monitoring Solutions
- J. Standalone Rack Security Solutions
- K. Rack Environment Solutions
- L. KVM Solutions
- M. LCD Consoles

**Overview**

Power Distribution is critical part of Rack solution and Industry can't afford down time or failure of product, as this directly impact operation of missions critical equipments further effecting business process.

NetRack understand the criticality of PDU. All models are professionally designed with High Quality & Tested Inputs to ensure customer get highest quality of the product with 100% Reliability and Dependability. NetRack Offers wide Range of high quality power distribution to feed power to mission critical equipment. NetRack PDU comes with high quality powder coated metal Box with best available electrical parts properly Rated and certified

NetRack Offers 3 variants to suit the requirement of industry

- Normal Power Distribution units 1 & 3 Phase
- Metered Power Distribution units 1 & 3 Phase
- Intelligent Power Distribution units 1 & 3 Phase

NetRack PDU's are Rated and protected with MCB & fuses to meet different industrial requirements. Input either open or with Indian/IEC Plugs. Available in horizontal and vertical mounting models with 1 Phase & 3 Phase Variants

Standard off the shelf models are below and can be customized to customer requirement

**Standard Socket Types**

IEC Standard C 19/16A

IEC Standard C 13/10A

Indian Roundpin 5/15 A

Indian Roundpin /5A

Intel Multipin /6A

Indian Round Pin

1	1Ph, 230V, 5A, Zero U standard rack mount power distribution unit with 3 X Indian Round Pin, 5A, Inlet Plug type 6A Indian Round Pin, 5A Fuse - PDU Rating 1.2KVA/ Side feed- 1 mt/ Black	PDU-H-1-IND-A3-X1-Y1-Z0
2	1Ph, 230V, 5A, 1 U standard rack mount power distribution unit with 4 X Indian Round Pin, 5A, Inlet Plug type 6A Indian Round Pin, 5A Fuse - PDU Rating 1.2KVA	PDU-H-1-IND-A4-X1-Y1-Z0
3	1Ph, 230V, 8A, 2U standard rack mount power distribution unit with 6 X Indian Round Pin 5A, Inlet Plug type 6A Indian Round Pin, 8A Fuse - PDU Rating 1.8KVA/Side feed-1.5Mt/ Black	PDU-H-1-IND-A6-X2-Y1-Z0
4	1Ph, 230V, 16A, 2U standard rack mount power distribution unit with 6 X Indian Round Pin 5/15A, Inlet Plug type 16A Indian Round Pin, 16A MCB - PDU Rating 3.6KVA/Side feed-1.5Mt/ Black	PDU-H-1-IND-B6-X3-Y1-Z0
5	1Ph, 230V, 16A, 2U standard rack mount power distribution unit with 6 X Indian Round Pin/ Octagonal, 5/15A, Inlet Plug type 16A Indian Round Pin 16A MCB - PDU Rating 3.6KVA/Side feed-1.5Mt/ Black	PDU-H-1-IND-C6-X3-Y1-Z0

Note : Other Socket configuration available on request

Indian Sockets Single Phase		
1	1Ph, 230V, 16A, Zero U standard Vertical rack mount power distribution unit with 10 X Indian Round Pin 5A, Inlet Plug type 16A Indian Round Pin, 16A MCB - PDU Rating 3.6KVA/Bottom feed-3Mt/ Black	PDU-V-1-IND-A10-X3-Y4-Z0
2	1Ph, 230V, 16A, Zero U standard Vertical rack mount power distribution unit with 15 X Indian Round Pin 5A, Inlet Plug type 16A Indian Round Pin, 16A MCB - PDU Rating 3.6KVA/Bottom feed-3Mt/ Black	PDU-V-1-IND-A15-X3-Y4-Z0
3	1Ph, 230V, 32A, Zero U standard Vertical rack mount power distribution unit with 12 X Indian Round Pin 5/15A, (Inlet Plug Not Installed, Recommended IEC30932A 2P +E), 16A MCB X 2 Circuits- PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	PDU-V-1-IND-B12-X4-Y4-Z0
4	1Ph, 230V, 32A, Zero U standard Vertical rack mount power distribution unit with 12 X Indian Round Pin/ Octogonal 5/15A, (Inlet Plug Not Installed, Recommended IEC30932A 2P +E), 16A MCB X 2 Circuits- PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	PDU-V-1-IND-C12-X4-Y4-Z0

Note : Other Socket configuration available on request

MultiPin		
1	1Ph, 230V, 8A, 2U standard rack mount power distribution unit with 6 X Intel Multi Pin 5A, Inlet Plug type 6A Indian Round Pin, 8A Fuse - PDU Rating 1.8KVA/Side feed-1.5Mt/ Black	PDU-H-1-MP-D6-X2-Y1-Z0
2	1Ph, 230V, 16A, 2U standard rack mount power distribution unit with 6 X Intel Multi Pin 6/13A, Inlet Plug type 16A Indian Round Pin, 16A MCB - PDU Rating 3.6KVA/Side feed-1.5Mt/ Black	PDU-H-1-MP-E6-X3-Y1-Z0
3	1Ph, 230V, 16A, Zero U standard Vertical rack mount power distribution unit with 10 X Intel Multipin 5A, Inlet Plug type 16A Indian Round Pin, 16A MCB - PDU Rating 3.6KVA/Bottom feed-3Mt/ Black	PDU-V-1-MP-D10-X3-Y4-Z0
4	1Ph, 230V, 16A, Zero U standard Vertical rack mount power distribution unit with 15 X Intel Multipin 5A, Inlet Plug type 16A Indian Round Pin, 16A MCB - PDU Rating 3.6KVA/Bottom feed-3Mt/ Black	PDU-V-1-MP-D15-X3-Y4-Z0
5	1Ph, 230V, 32A, Zero U standard Vertical rack mount power distribution unit with 10 X Intel Multipin 13A, (Inlet Plug Not Installed, Recommended IEC30932A 2P +E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	PDU-V-1-MP-E10-X4-Y4-Z0
6	1Ph, 230V, 32A, Zero U standard Vertical rack mount power distribution unit with 15 X Intel Multipin 13A, (Inlet Plug Not Installed, Recommended IEC30932A 2P +E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	PDU-V-1-MP-E15-X4-Y4-Z0

Note : Other Socket configuration available on request

IEC Single Phase Model		
1	1Ph, 230V, 32A, 1U standard rack mount power distribution unit with 12 X C13, Inlet Plug (Inlet Plug Not Installed, Recommended IEC30932A 2P+E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Rear feed-3Mt/ Black	PDU-H-1-IEC-F12-X4-Y2-Z0
2	1Ph, 230V, 32A, 1U standard rack mount power distribution unit with 8 X C19, Inlet Plug (Inlet Plug Not Installed, Recommended IEC30932A 2P+E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Rear feed-3Mt/ Black	PDU-H-1-IEC-G8-X4-Y2-Z0
3	1Ph, 230V, 32A, 1U standard rack mount power distribution unit with 4 X C13 & 4 XC19, Inlet Plug (Inlet Plug Not Installed, Recommended IEC30932A 2P+E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Rear feed-3Mt/ Black	PDU-H-1-IEC-F4-G4-X4-Y2-Z0
4	1Ph, 230V, 32A, 2U standard rack mount power distribution unit with 20 X C13 & 4 XC19, Inlet Plug (Inlet Plug Not Installed, Recommended IEC30932A 2P+E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Rear feed-3Mt/ Black	PDU-H-1-IEC-F20-G4-X4-Y2-Z0

Note : Other Socket configuration available on request

**IEC Sockets Single & Three Phase**

1	1Ph, 230V, 32A, Zero U standard rack mount power distribution unit with 12 X C13, Inlet Plug (Not Installed, Recommended IEC30932A 2P +E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	PDU-V-1-IEC-F12-X4-Y4-Z0
2	1Ph, 230V, 32A, Zero U standard rack mount power distribution unit with 12 X C19, Inlet Plug (Not Installed, Recommended IEC30932A 2P +E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	PDU-V-1-IEC-G12-X4-Y4-Z0
3	1Ph, 230V, 32A, Zero U standard rack mount power distribution unit with 12X C13 & 4 X C19, Inlet Plug (Not Installed, Recommended IEC30932A 2P +E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	PDU-V-1-IEC-F12-G4-X4-Y4-Z0
4	1Ph, 230V, 32A, Zero U standard rack mount power distribution unit with 20 X C13 & 4 X C 19, Inlet Plug (Inlet Plug Not Installed, Recommended IEC30932A 2P +E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	PDU-V-1-IEC-F20-G4-X4-Y4-Z0

**IEC Three Phase Model**

1	3Ph, 400V, 16A/Ph, Zero U standard rack mount power distribution unit with 24 X C13, Inlet Plug IEC30916A 4P +E, 16A MCB X 3 Circuits - PDU Rating 11KVA/Bottom feed-3Mt/ Black	PDU-V-3-IEC-F24-X6-Y4-Z0
2	3Ph, 400V, 16A/Ph, Zero U standard rack mount power distribution unit with 12 X C13 & 12 XC19, Inlet Plug IEC30916A 4P +E, 16A MCB X 3 Circuits - PDU Rating 11KVA/Bottom feed-3Mt/ Black	PDU-V-3-IEC-F12-G12-X6-Y4-Z0
3	3Ph, 400V, 32A/Ph, Zero U standard rack mount power distribution unit with 18 X C13 & 18 XIEC 19, Inlet Plug IEC30916A 4P +E, 16A MCB X 6 Circuits -PDU Rating 22KVA/Bottom feed-3Mt/ Black	PDU-V-3-IEC-F18-G18-X7-Y4-Z0
4	3Ph, 400V, 32A/Ph, Zero U standard rack mount power distribution unit with 30 X C13 & 6 XIEC 19, Inlet Plug IEC30932A 4P +E, 16A MCB X 6 Circuits - PDU Rating 22KVA/Bottom feed-3Mt/ Black	PDU-V-3-IEC-F30-G6-X7-Y4-Z0

Note : Other Socket configuration available on request

## Overview

PDU with inbuilt reliable Circuit board with digital display and can be programmed to show current, Voltage or Power or roll over on PDU level. This PDU is designed to bridge gap between conventional and intelligent PDU where in user map the load on the PDU and avoid over loading and MCB Tripping.

The PDU available with different types sockets configurations (Indian 5A, Indian 5/15, Intel Multipin, IEC Sockets) and All NetRack PDU's are rated and protected with MCB & Fuses to meet different industrial requirements. Input either open or with Indian / IEC Plugs. Available in horizontal and vertical Mounting Models with 1 Phase & 3 Phase Variants

Standard off the shelf Models are below and can be customized to customer requirement

Multi Pin		
1	1Ph, 230V, 32A, 3U standard rack mount Metered power distribution unit with 12 X Indian Round Pin 5/15A, (Inlet Plug Not Installed, Recommended IEC30932A 2P+E), 16A MCB X 2 Circuits- PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	MPDU-H-1-IND-B12-X4-Y2-Z0
2	1Ph, 230V, 32A, 3U standard rack mount Metered power distribution unit with 12 X Indian Round Pin/Octogonal, 5/15A, (Inlet Plug Not Installed, Recommended IEC30932A 2P+E), 16A MCB X 2 Circuits- PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	MPDU-H-1-IND-C12-X4-Y2-Z0
3	1Ph, 230V, 16A, Zero U standard Vertical rack mount Metered power distribution unit with 15 X Indian round pin 6A, Inlet Plug type 16A Indian Round Pin, 16A MCB - PDU Rating 3.6KVA/Bottom feed-3Mt/ Black	MPDU-V-1-IND-A15-X4-Y4-Z0
4	1Ph, 230V, 32A, Zero U standard Vertical rack mount Metered power distribution unit with 12 X Indian Round Pin 5/15A , Inlet Plug(Not Installed, Recommended IEC30932A 2P+E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed/ Black	MPDU-V-1-IND-B12-X4-Y4-Z0
5	1Ph, 230V, 32A, Zero U standard Vertical rack mount Metered power distribution unit with 12 X Indian Round Pin 5/15A/ Octogonal, Inlet Plug(Not Installed, Recommended IEC30932A 2P+E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	MPDU-V-1-IND-C12-X3-Y4-Z0
6	1Ph, 230V, 32A, Zero U standard Vertical rack mount Metered power distribution unit with 10 X Intel Multipin 13A, (Inlet Plug Not Installed, Recommended IEC30932A 2P+E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	MPDU-V-1-MP-E10-X4-Y4-Z0
7	1Ph, 230V, 32A, Zero U standard Vertical rack mount Metered power distribution unit with 15 X Intel Multipin 13A, (Inlet Plug Not Installed, Recommended IEC30932A 2P+E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	MPDU-V-1-MP-E15-X4-Y4-Z0

Note : Other Socket configuration available on request

IEC Socket		
1	1Ph, 230V, 32A, 1U Metered standard rack mount Metered power distribution unit with 12 X C13, Inlet Plug (Inlet Plug Not Installed, Recommended IEC30932A 2P + E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	MPDU-H-1-IEC-F12-X4-Y2-Z0
2	1Ph, 230V, 32A, 1U Metered standard rack mount Metered power distribution unit with 8 X C19, Inlet Plug (Inlet Plug Not Installed, Recommended IEC30932A 2P + E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	MPDU-H-1-IEC-G8-X4-Y2-Z0
3	1Ph, 230V, 32A, 1U standard rack mount Metered power distribution unit with 4 X C13 & 4 XC19, Inlet Plug (Inlet Plug Not Installed, Recommended IEC30932A 2P + E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	MPDU-H-1-IEC-F4-G4-X4-Y2-Z0
4	1Ph, 230V, 32A, 2U standard rack mount power Metered distribution unit with 20X C13 & 4 XC19, Inlet Plug (Inlet Plug Not Installed, Recommended IEC30932A 2P + E), 16A MCB X 2 Circuits - - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	MPDU-H-1-IEC-F20-G4-X4-Y2-Z0
5	1Ph, 230V, 32A, 1U Metered standard rack mount Metered power distribution unit with 12 X C13, Inlet Plug (Inlet Plug Not Installed, Recommended IEC30932A 2P + E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	MPDU-H-1-IEC-F12-X4-Y2-Z0-UL

Note : Other Socket configuration available on request

IEC Socket		
1	1Ph, 230V, 32A, Zero U standard rack mount Metered power distribution unit with 12 X C13, Inlet Plug (Not Installed, Recommended IEC30932A 2P + E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	MPDU-V-1-IEC-F12-X4-Y4-Z0
2	1Ph, 230V, 32A, Zero U standard rack mount Metered power distribution unit with 12X C13 & 4 X C19, Inlet Plug (Not Installed, Recommended IEC30932A 2P+E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	MPDU-V-1-IEC-F12-G4-X4-Y4-Z0
3	1Ph, 230V, 32A, Zero U standard rack mount Metered power distribution unit with 20 X C13 & 4 X C19, Inlet Plug (Inlet Plug Not Installed, Recommended IEC30932A 2P+E), 16A MCB X 2 Circuits - PDU Rating 7.3KVA/Bottom feed-3Mt/ Black	MPDU-V-1-IEC-F20-G4-X4-Y4-Z0

Note : Other Socket configuration available on request

## Overview

As a process of enhancement and to meeting customer requirement, Netrack offer complete range of colored PDU in all socket configuration including the customized PDU and below are the major advantages,

1. Easy in identifying the main & redundant feeds
2. Easy for Technician to work on Power management / Maintenance
3. Create standards @ DC/ Lab based Current / Power of PDU
4. Reduction of illumination at Rack back side, Power saving

## Color Matrix

Description		RAL Code	NetRack Color Code

Blue		RAL 5015	Z2
Orange		RAL 2000	Z3
Gray & Off White		RAL 7037 & 7035	Z4
Gray		RAL 7037	Z5
Off White		RAL 7035	Z6
Signal White		RAL 9003	Z7
Green		RAL 6018	Z8
Yellow		RAL 1003	Z9

Note: Color may vary from 5% to 10% please refer to [www.RALcolor.com](http://www.RALcolor.com)

**Overview**

Another challenge in the industry is power loss / shutdown of Mission Critical equipments by accidental Pullover and loose connections in socket & Plug, NetRack offers world class Technology to eliminate this problem once and for all, By IECLock Socket and IECLock Power cord and with combination we can eliminate accidental and vibration disconnects of cable at both PDU and equipment End

Lock Sockets available in C13 and C19 options. NetRack can offer all Socket combination PDU as per NetRack standards or Customer Requirement

Interestingly the IECLock Socket can take Normal Power Cord and with this we can eliminate RISK at PDU side. To eliminate RISK at both PDU & Equipment Side IECLock Socket and IECLock Power Cord Required.

C13 - C14

C19 - C 20

C14 - C15

**Features - Normal Cables**

- Available in 3 Lengths 2, 3, 6 feet
- Cable Available in 7 Colours(on MOQ)
- Readily Available in C13 -14, C14 -15 & C19-20 Configurations
- UL Listed and CE Compliant

**Note:**

\*Standard Length of the cable is 2, 3 & 6 feet other cable lengths are available on MOQ

Model Matrix	
Color Description	Part Code

## Overview

Another challenge in the industry is power loss / shutdown of Mission Critical equipments by accidental pullover and loose connections in socket & Plug, NetRack offers world class technology to eliminate this problem once and for all, By IEC Lock Socket and IEC Lock power cord and with combination we can eliminate accidental and vibration disconnects of cable at both PDU and equipment end

Lock Sockets available in C13 and C19 options. NetRack can offer all combination as per NetRack standard or Customer Requirement.

Interestingly the IEC Lock Socket can take Normal Power Cord and if customer looking at eliminating accidental and vibration disconnects only at PDU side then normal power Cords suffice the requirement. If customer is looking at safety at both end then need to buy IEC Lock PDU and power cord

## Features - IEC Lock PDU & Power cord

- Power Cord Available in 3 lengths 0.6, 0.9 and 1.8 Mts
- Available in different colours (on MOQ)
- The Universal Locking power cords Locks at equipment end
- Plug & Ply replacement with IEC Lock PDU
- No proprietary mating Plug Required
- Readily Available in C13 -14, & C19 -20 Configurations
- UL Listed and CE Compliant

## Overview

Creating power redundancy for single power source devices are very important to meet the requirement of ISMS/ISO 27000 and to further comply to the standard.

By adding STS, we are creating one more point of failure hence the Reliability of STS play major role along with switching time, understanding the requirement of industry, NetRack has designed the thirster based legendary reliable product with lowest possible switching time of 5mS when both source are in sync.

Model : NR-STS-1-2-16 & NR-STS-1-2-32	
<b>Input/Output</b>	
Nominal Voltage	230/240V AC(1PH+N)
Voltage Tolerances	+/-15%
Frequency Tolerances	Wide band - 40-70 Hz
Power Capacity	16A/32A
No.of Switching Poles	2 Poles ( Phase + Neutral)
Overloaded Capacity	110% for 1Hour 150% for 1 Minute 200% for 10 Seconds 1000% for 100Msec
Duty	Continuous
Load Power Factor Range	0.6 to unity Leading or Lagging
Controller	32-bit DSP
<b>Switch</b>	
Transfer	< 5 ms in sync & < 15 ms in No Sync
Manual Bypass	Yes
Efficiency (Ref.IEC 60146-1-1) (At full load & Nominal Input Voltage)	≥ 98 %

Environmental					
Acoustic noise level from 1 meter (Ref. ISO 3746)	≤ 45 dBA				
Operational temperature	0 to 40 Deg C				
Storage temperature	0 to 70 Deg C				
Relative humidity	Up to 95% (Non condensing)				
Altitude	< 1000 meters above sea level (without de-rating altitude)				
Physical					
Enclosure protection	IP - 20				
Cooling	Natural				
Color	RAL 7016 Texture				
Dimension	2U (Width - 450mm X depth - 485mm X height - 88.5mm)				
Installation	Rack mountable				
User Interface					
Indications	Source 1 Priority	Source 1 ON	Of source 1 Source 2 ON	Output ON	Manual by of source 1
	Source 2 Priority	Source 2 ON	Source 2 SW (Feeding)	No Sync	Manual by of source 2
Fault Indication					
Socket					
Description	Industrial Socket : IEC 30932A-2P+E				
	Socket 1	Socket 2	Socket 3		
	Source 1	Source 2	Out Put		
Other Features					
RS 485 MODBUS (Optional)					

**INTELLIGENT POWER & ELECTRONICS**

## Overview

Intelligent power and energy management solutions allow Data Center Operations Managers, IT Administrators and Facilities Managers to reduce costs and improve efficiency, uptime and capacity planning.

We have five options of PDUs to meet requirement of the industry & plug & play sensors to make the IT manager life easy.

Environmental Sensor

## Features

- Real-time PDU-level and outlet-level monitoring of power
- Remote PDU-level and outlet-level power switching
- Rack temperature and humidity monitoring
- Solutions that help IT administrators and facilities managers improve uptime and staff productivity
- Efficiently utilize power resources
- Make informed capacity planning decisions
- Save power and money
- Take a step towards becoming a more green data center
- PDU-level and outlet-level power switching
- RMS current and power metering, locally and remote, at strip and outlet level
- Temperature and humidity probe options
- History function for highest current used
- Alerts and traps (SNMP, SMTP, Syslog)
- Web interface (HTML)
- IPMI 2.0, SMASH-CU
- SNMP alerts controls
- Modern circuit breaker and soft breaker
- 256-bit AES encryption hardware core
- User authentication via LDAP, MSAD, CCSG
- SSH CLI

Features	Outlet Metered, Outlet Switched (PX-5000)	Outlet Metered (PX-4000)	Inlined Metered (PX-3000)	PUD Metered, Outlet Switched (PX-2000)	PDU Metered (PX-1000)

## Overview

For data center and lab managers who are concerned about the utilization and the cost of power, Power IQ enables you to reduce capital and operating expenditures by providing the information and controls you need to be more energy efficient and fully utilize your existing power infrastructure.

Through one Web browser, the scalable Power IQ manages any SNMP-metered device. You have the ability to add new devices on your own. Support is preinstalled and tested for APC®, Avocent®, BayTech®, Cyber Switching®, Cyclades®, Eaton, Geist, HP®, Knurr®, Liebert, MRV®, NetBotz, Raritan, Rittal®, Server Technology®, Sinetica, Starline Track Busway, Tripp Lite and UNITE™.

## Efficiently Utilize Energy

Power IQ provides you with valuable information and automated control that can help you gain efficiencies in the data center right away, including:

- Baseline energy consumption and track changes by IT device, rack, zone, customer, department and data center
- Easily seeing if you are operating within industry-accepted – and server manufacturers' recommended – temperature and humidity ranges
- Estimated savings calculation from increasing temperature to upper limit of recommendations
- Temperature threshold alert monitoring and trending, to safely manage environmental conditions
- Energy cost billback reports with one click
- Remote power on/off outlet groups
- Agentless graceful shutdown of system operating systems

## Make Informed Capacity Planning Decisions

Power IQ supplies actual load of IT devices under computing stress to provide you with better planning information.

- Collect short- and long-term data and compare to rated capacity to update design assumptions
- Monitor trends, alerts and threshold violations to understand future needs
- Power capacity meter will provide you forecasted "days of energy supply"

## User-Configurable Energy Management Dashboard

- Display on large screen in slide show mode with real-time updates
- Configurable size, layout and charts
- Display power and environmental health, energy capacity and consumption, weather services, maps, video and much more

### Power and Energy Analytics

Create an unlimited number of charts, such as active power by rack, carbon footprint by building, department billback and total energy consumption.

### Cooling Chart

Understand if you are compliant with manufacturers' and industry-accepted recommendations, and project how much you can save by increasing room ambient temperatures.

### Power Capacity "Days of Supply" Forecast

Create an unlimited number of charts, such as active power by rack, carbon footprint by building, department billback and total energy consumption. Understand your real-time power load, rate of change and forecasted trends at all levels of your infrastructure with our capacity forecast charts.

### PDU Page

View details about the PDU, such as manufacturer, model, serial number, firmware, voltage and current ratings, location and status.

**Overview**

NetTrack along with EMKA / Southco provide integrated solution on locking, protecting, monitoring & alarming as the requirements on control of facilities in server rooms and computer centers have changed clearly.

Requirements of today:

- Improved data security
- Protection against unauthorized access
- Logging of all event
- Parameter controlled supervision
- Triggering of planned measures
- Connection to super ordained management systems

Today's integrated system solutions must provide these capabilities - absolutely reliable, scalable and economical. Of course the suitable locking solution has to be included too. This product assures complete solution from one hand, which has the decisive features. Our modular designed systems can be easily adapted to the customer's needs. The ELM control software allows for convenient control of all processes and access regulations

The 19" rack mount unit can be equipped individually and is a universally usable and convenient plug-and-play solution

**Software**

Locking	Protecting	Monitoring	Alarming

## Overview

Intelligent Rack Access controller, designed and manufactured with highest quality standards to control & manage front & back door of Rack / Enclosures. The system is reliable easy to install with minimum support and can be Installed in new Racks and retrofitted on existing Racks.

All critical components installed in 1U enclosure with external connectors for easy installation, different readers & lock options Available to meet the requirement of the industry.

The product consist of three major components

1. Controller
2. Reader
3. Mechatronics Locks

## Features

- 1U Rack mountable easy to install with excellent regional support, Value added customization support
- Reliable, robust and scalable solutions
- Industry specific value added feature
- Solutions give a complete configurable facility to control front and back door of server rack
- Lock / unlock the access point depending upon the pre-configured access rules based on credentials and time
- Plug & Play Mechatronic Locks and Readers with RJ45 Connectivity
- Onboard TCP/IP, The versatile interface makes the devices technically very strong & user friendly. It gives a huge freedom to use the infrastructure either its existing or, upcoming SNMP Alerts: SNMP Alerts generated for various events i.e, Unauthorized Access, DOTL, Door Force Open, Etc.
- Easy Remote Online Firmware Up-gradation, Device Has inbuilt capability for online firmware up-gradation
- Transaction and user Capacity: It stores up to 50,000 User/Cards and up to 1,00,000 Transaction/Events
- Data Security: Data can be Downloaded on the software by mapping the IP address of the controller making it more secure
- Multi card Format Supported: Compatible with all latest card technology, HID-iClass, HID PROX, Mifare, EM Prox
- Dual authentication ready. Card + PIN, Biometric + PIN

Technical Data:	
CPU	ARM 32 Bit RISC Processor
Memory	Up to 8 MB (Flash)
No. Of. Doors	2
No. Of Readers	2
Events/Transactions	1,00,000
No. Users	50,000
Web Server	Yes
Reader Interface	Wigand Upto 34 Bit
Input	4
Output	4
Communication Port	TCP/IP, Rs485
Fire Integration	Yes
Intrusion Integration	Yes
LCD	16X2 LCD Display
Keypad	4X3 Key with Soft Keypad
Baud Rate	96000bps (Default)
Controller ID	Unlimited
Language	English
Power Supply	12 V Dc / 5A
Enclosure	1 U rack Enclosure
Facility Code	Available
Time Zone / Access Levels	63 + 1 ( free Time Zone/Unlimited)
Time Zone Slots	4 Slots per Day
Holiday Settings	42

Mechatronics Locks

### Over View- Management Software

Smart access is a new and latest access management software specially designed for Rack access controller this software has unique feature of configuring various parameters at reader level instead of controller level as in download reader rather controller, thus offering more flexibility in defining the access designed and developed which can include any new product or controllers that would be introduced in future by Netrack

### Key Features Of The Project

- Bulk upload of cards
- Finger or Card Identity for admin login - supports duress finger
- User definable LCD messages
- Multiple time zone
- APBs: user wise soft, area wise, escort - Holidays: 42 (Reader Wise)
- Controller No: Max 9999
- Auto Downloading
- Reset command from software
- Self backup of Database
- Report Format : excel, Xml, dbf, txt, csv,
- Crystal reports

### Security Features

- Audit Log available - Password Protected
- Definable user Rights
- Restriction of downloading from a particular company only using IP address

### Reports

- Access Report -10 Entry Report - FILO Report
- Event Report
- Unknown Transaction Report
- Employee Report
- Employee Access Level Report
- Audit Report

### Specifications For Rac 015

- Multiuser
- Multi Company
- Multi Location
- Employee Photograph
- Visible online status when connected to PC
- Displaying short Messages
- Fingerprint Templates Management
- Delay time to access successive punches from the same user

### System Configuration

- Windows 2000 or above - 80 GB Harddisk
- 1 GB RAM
- Mouse available

### Electronic Key Pad Locking System

#### Features

- ELM Combination Handle Unit with Integrated Keypad
- The Combination Handle Unit is a spring loaded handle with an operating module key pad
- The keypad allows the selection of doors within the complete system, as well as an input of the access code of the selected door
- The integrated locking unit lets at a triggered impulse the handle jump from the hollow so that it can be pressed
- The integrated reed contact reports the current operation status of the handle (open/closed) to the connected modules for further processing.
- The keypad has access to all of the other connected locking systems. In turn, the handle device can be opened also from other operation modules or via software from the PC
- The access code system allows forming of groups from handles with different opening permissions which can be subdivided hierarchically

**Overview**

Trends towards consolidation and higher-density computing configurations increasing the requirement of climate monitoring today. NetRack along with Raritan and EMKA offer different options.

Display based Monitoring system to monitor temperature, humidity and smoke, with inbuilt capability for further automation like fan control with set points and alarming. Standard configuration include 5 sensor inputs (3-temperature 1 Humidity & 1 smoke) 2 relays out puts (Hooter and Fan Control)

Central Control / Display Unit

**Features**

- Monitors the temperature, humidity & smoke inside the enclosure out put to alarm relay and one additional relay out put for further automation / Trip /
- Fan control with set point
- Temperature and Humidity can be set for low and high value
- Smoke detection and alarming
- Audio-Video Alarm (Audio-Buzzer and Video-Fault Type on Display Unit) in the event of fault

Sensor Humidity & Temperature

Sensor / Smoke

climate monitoring along with EMKA Rack Monitoring  
Systems

### Smart Rack Controller (EMX) from Raritan

Raritan's environmental rack controller is an IP-based appliance that allows you to use any of Raritan's sensors such as temperature, humidity, air pressure and airflow

- Works with Raritan's Power IQ<sup>®</sup> energy management software and dcTracke<sup>®</sup> DCIM software
- Up to 16 sensors per EMX2-111
- Up to 128 sensors per EMX2-888
- Wired or wireless network options
- USB camera option

### Environment Sensors

- Temperature
- Humidity
- Airflow
- Air pressure
- Contact closure enables use of additional sensors, including water, smoke, door open/closed and door locked.

**Overview**

**DKX3 High Performance KVM-over-IP S**

The Dominion® KX III is an enterprise-class KVM-over-IP switch that provides 1, 2, 4 or 8 users with remote BIOS-level control of 8 to 64 servers. It comes with standard features such as DVI/HDMI/DisplayPort digital and analog video, audio, virtual media, smart card/CAC, blade server support, and mobile access. Deploy it alone, or with Raritan’s CommandCenter® Secure Gateway (CC-SG) for centralized access to all KX IIIs; or with the User Station for hassle-free IP KVM access.

KVM-over-IP access in a self-contained, low-maintenance appliance. Its productive user interface supports two 1080p video sessions at 30 FPS, simultaneous access to eight or more servers, dual monitors, audio and virtual media.

**Model Matrix & Dimensions**

Specifications	Description
DKX3-864	64 server ports, 8 remote users, 1 local port for use at the rack
DKX3-832	32 server ports, 8 remote users, 1 local port for use at the rack
DKX3-808	8 server ports, 8 remote users, 1 local port for use at the rack
DKX3-464	64 server ports, 4 remote users, 1 local port for use at the rack
DKX3-432	32 server ports, 4 remote users, 1 local port for use at the rack
DKX3-416	16 server ports, 4 remote users, 1 local port for use at the rack
DKX3-232	32 server ports, 2 remote users, 1 local port for use at the rack
DKX3-216	16 server ports, 2 remote users, 1 local port for use at the rack
DKX3-132	32 server ports, 1 remote user, 1 local port for use at the rack
DKX3-116	16 server ports, 1 remote user, 1 local port for use at the rack
DKX3-108	8 server ports, 1 remote user, 1 local port for use at the rack

Overview

DLX KVM-Over-IP for Small to Midsize Businesses

Dominion® LX is Raritan's affordable KVM-over-IP switch that provides IT managers in small and midsize business (SMB) environments with local and remote BIOS-level server management in 8 port and 16 port switches (expandable to 256 servers with tiering)

It's ideal for Small to Midsize Businesses looking for a small footprint and reliability with affordability

Models	
Dominion LX Model	Description
DLX-108	Economical 8-port KVM-over-IP switch, 1 remote, 1 local user, virtual media, single power and single LAN
DLX-116	Economical 16-port KVM-over-IP switch, 1 remote, 1 local user, virtual media, single power and single LAN
DLX-216	Economical 16-port KVM-over-IP switch, 2 remote, 1 local user, virtual media, single power and single LAN

## Overview

The Dominion SX II is Raritan's next-generation Serial Console Server (Terminal Server) that provides IT and network administrators secure IP access and control of serial devices, anytime, anywhere. The new SX II is the most powerful, secure, reliable, easy-to-use serial-over-IP device on the market. SX II provides convenient access to networking devices, servers, PDUs, telecommunications and other serial devices.

## Model Matrix

Models	Description
DSX2-4 / DSX2-4M	4-port serial console server with dual-power AC and dual gigabit LAN. Serial, USB and KVM local console ports. 19" rack mount kit. (M in model = internal telephone modem)
DSX2-8 / DSX2-8M	8-port serial console server with dual-power AC and dual gigabit LAN. Serial, USB and KVM local console ports. 19" rack mount kit. (M in model = internal telephone modem)
DSX2-8M-DC	8-port serial console server with dual-power DC and dual gigabit LAN. Serial, USB and KVM local console ports. 19" rack mount kit. Internal telephone modem
DSX2-16 / DSX2-16M	16-port serial console server with dual-power AC and dual gigabit LAN. Serial, USB and KVM local console ports. 19" rack mount kit. (M in model = internal telephone modem)
DSX2-32 / DSX2-32M	32-port serial console server with dual-power AC and dual gigabit LAN. Serial, USB and KVM local console ports. 19" rack mount kit. (M in model = internal telephone modem)
DSX2-32M-DC	32-port serial console server with dual-power DC, dual gigabit LAN. Serial, USB and KVM local console ports. 19" rack mount kit. Internal telephone modem
DSX2-48 / DSX2-48M	48-port serial console server with dual-power AC and dual gigabit LAN. Serial, USB and KVM local console ports. 19" rack mount kit. (M in model = internal telephone modem)
DSX2-48M-DC	48-port serial console server with dual-power DC, dual gigabit LAN. Serial, USB and KVM local console ports. 19" rack mount kit. Internal telephone modem

Overview

Managing more servers at rack level with single monitor and key board OR LCD Console drawer is a challenge and as entry level we need some device to manage this cost effectively. NetRack understand the requirement introduce Analogue 8 and 16 port KVM which can be cascaded till 8 levels. Interestingly Analogue KVM are used in all SOHO, SMB and Enterprise segment.

NR-CV-S801

NR-CV-S1601

Combo DB-15 KVM Benefits

- Combo DB-15 KVM with either 8 or 16 ports in 1U
- Cascade switches up to 8 levels & Mix switches between Cat6 & Combo DB-15 KVM
- Mix PS/2, USB & SUN with Multi-Platform switch capability
- Support resolution up to 1920 x 1080
- SUN 1152 x 900 resolution compatible
- Hot pluggable, no software or drivers required
- Easy & quick installation

Switch Features & Options

- Multi lingual on screen display menu
- Advanced user profiles and configurable OSD hot key combinations
- DC power options : 12V / 24V / 48V / 110 ~ 125V

## MEDIUM DENSITY CLOSED RACK SOLUTIONS

- A. Closed All Steel Server & Network Racks - NRS Series
- B. Closed Composite Aluminum & Steel Server Network Racks - NRA Series

## Overview

NRS Series are Rigid Racks for Servers, Networking, AV, Telecom & Lab application. Racks manufactured out of steel sheet punched, formed, welded and powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard for Racks configuration will be welded frame with 4 no pillars of 7 folded profile welded to top and bottom ribbed/reinforced frame additionally supported depth wise by welding 6 no depth rail 4 folded profile. Associated with vented top cover with fan mounting provision front glass or perforated metal door with lock & key and back vented / perforated metal door with lock & key and partially vented or plain side panels 1200 deep rack will be configured with dual side panel. Free standing on floor with 4 No casters wheels with 2 No with brakes and 2 Nos. without brakes & with levelers or plinth.

Available in 6RU~52RU Variants with 650, 800,1000 & 1200 Depth configurations and 600 Width configurations.

NRS 600 Series Configurator Drawing with Critical Parts

NRS 600 mm Width Rack

## Features

- Conforms to DIN 41494 or Equivalent EIA / ISO / EN / CEA Standard
- Adjustable mounting depth
- 4 No adjustable, 19" verticals with punched 10 mm Square Hole and Universal 12.7mm-15.875mm-15.875mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space
- Numbered U positions
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard for equipments)
- Powder coated finish with seven tank pretreatment process meeting ASTM standard
- Grounding & Bonding Options
- Fan module Mount provision on top cover

## Accessories:

- Cable Basket
- Cantilever Shelf
- Cable Organisers
- Casters
- Angle Pair
- Sliding Shelf
- Fans and Fan Modules
- Levellers
- Ganging Kit
- Key Board Shelf
- Rack Ground Kit
- Rack Stabilizing Kit
- Fixed Shelf
- Power Distribution Units
- Plinth

## Technical Data:

Basic Frame	Steel folded
Construction	Welded or CKD
Top & Bottom Cover	Bolted to Frame with Cable entry exit cut outs
Front Door	Lockable Toughened Glass Door OR Lockable Perforated Steel Door
Rear Door	Lockable Steel Door - Plain / Vented / Perforated
19" Mounting Angle	Formed Steel
Std. Equipment Mounting	DIN Std. 10mm Sq. Slots
Standard Finish	Powder coated
Standard Colour	Grey & Off White OR Black
Standard Mounting	Caster wheels (2 with Brake & 2 without Brake) OR Levelers OR Plinth
Rack Standard	Conforms to DIN 41494 or equivalent standard
Static Load	750Kg with casters. 1250Kg with Levelers / Plinth

**Note :**

1. Overall Height = Frame Height + Plinth or Caster
2. Other models can be manufactured on request
3. It is recommended to distribute the Load along with U space in the Rack
4. Dimension are in MM

**Abbreviations**

H - Overall height    h - Usable height    W - Overall width    w - Usable width    D - Overall depth    d - Usable depth

Description	Height (mm)
TYPE-1	65
TYPE-2	85
TYPE-3	105

## Overview

NRS Series are Rigid Racks for Servers, Networking, AV, Telecom & Lab application. Racks manufactured out of steel sheet punched, formed, welded and powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard for racks configuration will be welded frame with 4 no pillars of 7 folded profile welded to top and bottom ribbed/reinforced frame additionally supported depth wise by welding 6 no depth rail 4 folded profile. Associated with vented top cover with fan mounting provision front glass or perforated metal door with lock & key and back vented / perforated metal door with lock & key and partially vented or Plain side panels 1200 deep rack will be configured with dual side panel. Free standing on floor with 4 No casters wheels with 2 No with brakes and 2 Nos. without brakes & with levelers or plinth.

Available in 6RU~52RU Variants with 800,1000 & 1200 Depth configurations and 800 Width configurations.

## Features

- Conforms to DIN 41494 or Equivalent EIA / ISO / EN / CEA Standard
- Adjustable mounting depth
- 4 No Adjustable, 19" verticals with punched 10 mm Square Hole and Universal 12.7mm-15.875mm-15.875mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space
- Numbered U positions
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard for equipments)
- Powder coated finish with seven tank pretreatment process meeting ASTM standard
- Grounding & Bonding Options
- Fan module Mount Provision on top Cover

## Accessories:

- Cable Basket
- Angle Pair
- Ganging Kit
- Fixed Shelf
- Cantilever Shelf
- Sliding Shelf
- Key Board Shelf
- Power Distribution Units
- Cable Organisers
- Fans and Fan Modules
- Rack Ground Kit
- Plinth
- Casters
- Levellers
- Rack Stabilizing Kit

## Technical Data:

Basic Frame	Steel folded
Construction	Welded or CKD
Top & Bottom Cover	Bolted to Frame with Cable entry exit cut outs
Front Door	Lockable Toughened Glass Door OR Lockable Perforated steel Door
Rear Door	Lockable Steel Door - Plain / Vented / Perforated
19" Mounting Angle	Formed Steel
Std. Equipment Mounting	DIN Std. 10mm Sq. Slots
Standard Finish	Powder coated
Standard Colour	Grey & Off White OR Black
Standard Mounting	Caster wheels (2 with Brake & 2 without Brake) OR Levelers OR Plinth
Rack Standard	Conforms to DIN 41494 or equivalent standard
Static Load	750Kg with casters. 1250Kg with Levelers / Plinth

CLOSED COMPOSITE ALUMINUM &  
STEEL SERVER & NETWORK RACKS

# NRA SERIES

## Overview

NRA Series, Rigid Racks for Servers, Networking, AV, Telecom & Lab application. Racks manufactured out of aluminum profile, Formed steel frames & members, individually powder coated and bolted with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system.

Standard for Racks configuration will be bolted frame with 4 No. pillars made of aluminium extruded profile bolted to top and bottom ribbed/ reinforced frame additionally supported depth wise by 6 no depth rail 2 folded profile. Associated with vented top cover with fan mounting provision. Front Glass or perforated Metal Door with Lock & Key and Back Vented / Perforated Metal Door with Lock & Key and partially Vented or Plain side panels, 1200 deep rack will be configured with dual side panel. Free standing on floor with 4 No casters wheels with 2 Nos. with brakes and 2 Nos. without brakes & with levelers OR plinth.

Available in 6RU~52RU Variants with 650, 800,1000 & 1200 Depth configurations and 600 Width configurations

| 5. Glass Door |                             |

## Features

- Conforms to DIN 41494 or Equivalent EIA / ISO / EN / CEA Standard
- Adjustable mounting depth
- 4 No Adjustable, 19" verticals with punched 10 mm Square Hole and Universal 12.7mm-15.875mm-15.875mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space
- Numbered U positions
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard for equipments)
- Powder coated finish with seven tank pretreatment process meeting ASTM standard
- Grounding & Bonding Options
- Fan module Mount provision on top cover

Technical Data:	
Basic Frame	Composite (Aluminium Section & Steel)
Construction	CKD Type
Top & Bottom Cover	Bolted to Frame with Cable entry exit cut outs
Front Door	Lockable Toughened Glass Door OR Lockable Perforated steel Door
Rear Door	Lockable Steel Door - Plain / Vented / Perforated
19" Mounting Angle	Formed Steel
Std. Equipment Mounting	DIN Std. 10mm Sq. Slots
Standard Finish	Powder coated
Standard Colour	Grey & Off White OR Black
Standard Mounting	Caster wheels (2 with Brake & 2 without Brake) OR Levelers OR Plinth
Rack Standard	Conforms to DIN 41494 or equivalent standard
Static Load	750Kg with casters. 1250Kg with Levelers / Plinth

## GENERAL ELECTRONICS RACKS

- A. Single Section Wall Mount Racks
- B. Double Section Wall Mount Racks
- C. Floor Mount Racks - FM Series
- D. Floor mount Racks - NRS1 Series
- E. Table Mount Rack - NRS1 Series

## Overview

WM Series, General Electronics Racks for Small Networking, AV, Telecom & Lab application. Racks are manufactured out of steel sheet punched, formed, welded and powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard for Racks configuration will be welded frame integrated with side panel / removable side panel is available and vented top cover with fan mounting provision, associated Front Glass Door with Lock & Key and provision to mount racks on wall.

Available in 4RU~15RU Variants with 400, 500, 550 & 600 Depth configurations and 550 Width configurations.

Single Section Wall Mount Configurator Drawing with Critical Parts

1. Rack Frame  
2. Glass Door

Features

- Conforms to DIN 41494 or Equivalent EIA /ISO / EN / CEA Standard
- Adjustable mounting depth
- 2 No Adjustable, 19" verticals with Punched 10 mm Square Hole and Universal 12.7mm-15.875mm-15.875mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space.
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard for equipments)
- Powder coated finish with seven tank pretreatment process meeting ASTM standard
- Grounding & Bonding Options
- 1 or 2 Fan Mount provision on top cover

Accessories:

- Cable Organisers
- Power Distribution Units
- Shelves
- Cooling Fans
- Rack ground Kit

Technical Data:	
Basic Frame	Steel
Construction	Welded / CKD
Top & Bottom Cover	Welded to Frame with Cable entry exit cut outs
Front Door	Lockable Toughened Glass Door
19" Mounting Angle	Formed Steel
Std. Equipment Mounting	DIN Std. 10mm Sq. Slots
Standard Finish	Powder coated
Standard Colour	Grey & Off White OR Black
Rack Standard	Conforms to DIN 41494 or equivalent standard
Static Load	30Kg

### Overview

WM-DS Series, General Electronics Racks for Small Networking, AV, Telecom & Lab application. Racks manufactured out of steel sheet punched, formed, welded and powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard for Racks configuration will be welded frame integrated with side panel / removable side panel is available and vented top cover with fan mounting provision, Associated Front Glass Door with Lock & Key. Front Section will be hinged to Back section with high quality hinges. Back section will have wall mounting provision. Front & Back section can be Locked with Lock & Key.

Available in 6RU ~ 15RU Variants with 500 & 600 Depth configurations and 550 Width configurations.

## Double Section Wall Mount Configurator Drawing with Critical Parts

1. Rack Frame
2. Glass Door
3. Rear Section

### Features

- Conforms to DIN 41494 or Equivalent EIA /ISO / EN / CEA Standard
- Adjustable mounting depth
- 2 No Adjustable, 19" verticals with Punched 10 mm Square Hole and Universal 12.7mm-15.875mm-15.875mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space.
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard for equipments)
- Powder coated finish with seven tank pretreatment process meeting ASTM standard

FLOOR MOUNT RACKS  
FM, NRS1,  
TABLE MOUNT - NRS1

### Overview

FM Series, General Electronics Racks for Small Networking, AV, Telecom & Lab application. Racks manufactured out of steel sheet punched, formed, welded and powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product

Standard for Racks configuration will be welded frame integrated with side panel and vented top cover with fan mounting provision, associated with Front Glass Door with Lock & Key and Back Metal Door with Lock & Key and freestanding on floor with 4 No casters wheels with 2 No with brakes and 2 No without brakes

Available in 6RU ~32RU Variants with 600 Depth configurations and 600 Width configurations

Floor Mount Racks - FM Series Configurator Drawing with Critical Parts

1. Rack Frame
2. Casters
3. Glass Door
4. Metal Door

**Features**

- Conforms to DIN 41494 or Equivalent EIA /ISO / EN / CEA Standard
- Adjustable mounting depth
- 4 No Adjustable, 19" verticals with Punched 10 mm Square Hole and Universal 12.7mm-15.875mm-15.875mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space
- Universal 25MM Pitch Holes For ETSI Standard Racks
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard for equipments)
- Powder coated finish with seven tank pretreatment process meeting ASTM standard
- Grounding & Bonding options
- Fan module Mount provision on top cover

## Accessories:

## Overview

NRS 1 Series, General Electronics Racks for Servers, Networking, AV, Telecom & Lab application. Racks are manufactured out of steel sheet punched, formed, welded and Powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard for Racks configuration will be welded frame with vented top cover with fan mounting provision, Associated Front Glass or Perforated Metal Door with Lock & Key and Back Vented / Perforated Metal Door with Lock & Key and partially vented side panels, free standing on floor with 4 No. casters wheels with 2 No. with brakes & 2 No. without brakes, optional levelers.

Available in 22RU~42RU Variants with 800 & 1000 Depth configurations and 800 Width configurations.

NRS1 800 Series Configurator Drawing with Critical Parts

Features

- Conforms to DIN 41494 or Equivalent EIA / ISO / EN / CEA Standard
- Adjustable mounting depth
- 4 No Adjustable, 19" verticals with Punched 10 mm Square Hole and Universal 12.7mm-15.875mm-15.875mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space
- Numbered U positions
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard for equipments)
- Powder coated finish with seven tank pretreatment process meeting ASTM standard
- Grounding & Bonding options
- Fan module Mount Provision on top cover

Accessories:

## Overview

NRS1 Series (Table Mount) General Electronics Racks for Servers, Networking, AV, Telecom & Lab application. Racks are manufactured out of steel sheet punched, formed, welded and Powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard for Racks configuration will be welded frame with vented top cover with fan mounting provision, associated Front Glass or perforated Metal Door with Lock & Key and Back Vented / Perforated Metal Door with Lock & Key and partially vented side panels, mounted on table with 4 No bush/leveller.

Available in 6RU~15RU Variants with 650, 800,1000 Depth configurations and 600 Width configurations

## RACK ACCESSORIES

- A. Locking System
- B. Casters & Levellers, Shelf's
- C. Sliding Shelf's & Extended Leg / Castors
- D. Cantilever Shelf's
- E. Plinth
- F. Ganging Kit & Angle Pair, Rack Stabilising Kit
- G. Vertical Cable Organiser Loop & Universal Cable Basket
- H. Adopter Kit with Loop
- I. Cable Basket & Modem Racks
- J. Fiber Termination Unit (LIU)
- K. Tower Mount Fans Modules
- L. Gland Plate Module

## Overview

NetRack offers complete range of Locking System For Rack Security customer can select the Locking System based on the Management & site requirement. Below are the standard solution available off the shelf to meet individual requirement of the Customer and all the below Locks can be with single Point, Three Point & Four point Locking Systems.

- Swing Handle / Common Key & Unique Key
- Swing Handle / Wing Knob Lock
- Swing Handle / Number Lock / Common Key & Unique Key,
- Data Center Lock Set

### Swing Handle Die Cast Locking System

Model Matrix	
Description	Part Number
Swing Handle / Mechanical Lock / Single Point / Common Key/Die Cast Metal	RSL-001-1
Swing Handle / Mechanical Lock / Three Point / Common Key/Die Cast Metal	RSL-001-3
Swing Handle / Mechanical Lock / Four Point / Common Key/Die Cast Metal	RSL-001-4
Swing Handle / Mechanical Lock / Single Point / Unique Key/Die Cast Metal	RSL-002-1
Swing Handle / Mechanical Lock / Three Point / Unique Key/Die Cast Metal	RSL-002-3
Swing Handle / Mechanical Lock / Four Point / Unique Key/Die Cast Metal	RSL-002-4

### Swing Handle Polymade Locking System

Model Matrix	
Description	Part Number
Swing handle / Mechanical Lock / Single Point / Common Key/Polymade	RSL-005-1
Swing handle / Mechanical Lock / Three Point / Common Key/Polymade	RSL-005-3

Swing Handle Number Locking System

Model Matrix

Description	Part Number
Swing Handle / Number Lock/ Single Point / Common Key/ Polymade	RSL-003-1
Swing Handle / Number Lock/ Three Point / Common Key/ Polymade	RSL-003-3
Swing Handle / Number Lock/ Single Point / Unique Key/ Polymade	RSL-004-1
Swing Handle / Number Lock/ Three Point / Unique Key/ Polymade	RSL-004-3

Wing Knob Locking System

Model Matrix

Description	Part Number
Wing Knob / Mechanical Lock / Single Point/Type 1	RSL-006-1
Wing Knob / Mechanical Lock / Single Point/Type 2	RSL-006-2

DC Rack Lock Set

DC Rack Lock Set

**Model Matrix**

Description	Part Number
DC Rack Lock Set/Single Unique key/2 No Door, Single Point & Single Point	RSL-006-11-1
DC Rack Lock Set/Single Unique key/2 No Door, Single Point & Single Point/2 No Side panel Lock	RSL-006-11-2
DC Rack Lock Set/Single Unique key/2 No Door, Single Point & single Point/4 No Side panel Lock	RSL-006-11-3
DC Rack Lock Set/Single Unique key/2 No Door, Single Point & Three Point	RSL-006-13-1
DC Rack Lock Set/Single Unique key/2 No Door, Single Point & Three Point/2 No Side panel Lock	RSL-006-13-2
DC Rack Lock Set/Single Unique key/2 No Door, Single Point & Three Point/4 No Side panel Lock	RSL-006-13-3
DC Rack Lock Set/Single Unique key/2 No Door, Three point Point & Three Point	RSL-007-33-1
DC Rack Lock Set/Single Unique key/2 No Door, Three Point & Three Point/2 No Side panel Lock	RSL-007-33-2
DC Rack Lock Set/Single Unique key/2 No Door, Three Point & Three Point/4 No Side panel Lock	RSL-007-33-3
DC Rack Lock Set/Single Unique key/2 No Door, Four point & Three Point	RSL-007-43-1
DC Rack Lock Set/Single Unique key/2 No Door, Four Point & Three Point/2 No Side panel Lock	RSL-007-43-2
DC Rack Lock Set/Single Unique key/2 No Door, Four Point & Three Point/4 No Side panel Lock	RSL-007-43-3
DC Rack Lock Set/Single Unique key/2 No Door, Four point & Four Point	RSL-007-44-1
DC Rack Lock Set/Single Unique key/2 No Door, Four Point & Four Point/2 No Side panel Lock	RSL-007-44-2
DC Rack Lock Set/Single Unique key/2 No Door, Four Point & Four Point/4 No Side panel Lock	RSL-007-44-3

Rack Stabilizing Kit/ 600/Sliding	RSK-600-S	Formed Steel & Powder Coated
Rack Stabilizing Kit/ 800/Sliding	RSK-800-S	

## Vertical Cable Organisor/Loop

Installed in 600 mm Wide Racks to Manage Low and Medium Volume of Cables.

Model Matrix & Dimensions	
Description	Part No.
Vertical Cable Organisor/ 1U XXU/Loop	VCO-XX-L
Vertical Cable Organisor/ 2U XXU/Loop	VCO-XX-L

Available in 40 & 90 mm Wide Loop and 12 RU to 38 RU Variants.

## Universal Cable Basket

Model Matrix & Dimensions	
Description	Part No.
Universal Cable Basket/22~52U/150/Loops	UCB-150-22~52-L
Universal Cable Basket/22 ~52U/100/Loops	UCB-100-22~52-L

Note: In Part No XX will be Replaced with RU Size

Overview

Adopter Kit used in 800 wide Racks, which converts to 19" Standard with provision of Cable Management. The Adopter made of Formed Steel and Powder coated will have a provision to fix either Loop or Channel and Modular. NetRack offers both Loop type and Channel type Cable management, this comes with 3 variants :

1. Front & Back Loops
2. Front Closed with Door & Back Loops
3. Front & Back Closed with Doors

Adopter Kit with  
40 mm X 2 Loop

Adopter Kit with  
90 mm Loop

Adopter Kit/  
Closed Door

Model Matrix & Dimensions

Description	Part No.	Construction
19" Adopter Kit/XXU/Loops	AK-XX-L	Formed Steel & Powder Coated
19" Adopter Kit/XXU/Loops/ Type1	AK-XX-L-001	
19" Adopter Kit/XXU/Closed/ Door/100-2	AK-XX-CD-100-2	
19" Adopter Kit/XXU/Closed/ Door/100x100-4	AK-XX-CD-100-4	
19" Adopter Kit/XXU/Closed/ Door/150-2	AK-XX-CD-150-2	
19" Adopter Kit/XXU/Closed/ Door/150x150-4	AK-XX-CD-150-4	

Note: In Part No XX will be Replaced with RU space

### Cable Basket

Model Matrix & Dimensions		
Description	Part No.	Construction
Cable Basket/ 12U~52U/100	CB-100-12U~52U	Formed Steel & Powder Coated
Cable Basket/ 12U~52U/200	CB-200-12U~52U	
Cable Basket/ 12U~52U/300	CB-300-12U~52U	

### Modem Racks

#### Overview

Modem Racks are used to stack Modem vertically inside the Rack for better organising and space saving. NetRack offers 2 types of Designs

- Type 1 Aluminum Frame with options for closing top, Bottom & Back with provision for fixing vertical Partition and adjusting the width as per Customer requirement. Available in 6RU
- Type 2 MS Formed shelf with provision for fixing vertical partition and adjusting the Width as per Customer requirement. Available in 4RU

#### Modem Rack Type 1

Model Matrix	
Description	Part Number
Modem Rack /6U/250/TYPE 1	MR-6-250-T1

Modem Rack /6U/400/TYPE 1	MR-6-400-T1
Partision Plate/6U	PP-6-400-T1

#### Modem Rack Type 2

Model Matrix	
Description	Part Number
Modem Rack /4U/250/TYPE 2	MR-4-250-T2
Partision Plate/4U	PP-4-250-T2
Modem Rack /4U/400/TYPE 2	MR-4-400-T2
Partision Plate/4U	PP-4-400-T2

Overview

LIU manufactured out of steel sheet punched, formed, welded and Powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard model will be 1U / 19" box with options of front coupler plates.

Technical Data:

Basic Chasis	Steel
Construction	Sliding Type
Mounting	19"/21" Rack Mount
Standard Finish	Powder Coated
Slicing & Cable Management	PVC
Standard Colour	Grey & Off White or Black

Note:

Other Colour powder coating on request.

## OUTDOOR CABINET

- A. Wall Mount Racks - WMOD
- B. Floor Mount Racks - FMOD

## Overview

WMOD Series, Wall mount Racks for Outdoor Application and Designed to meet IP55 (Ingress protection) requirement. Racks are manufactured out of CRCA steel sheet punched, formed, welded to withstand the outdoor bad condition the racks are specially powder coated by Dual coat with primer & Pure polyester powder

Racks are manufactured with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system. Manufacturing facility also comply ISO 14001-2004 & OHSAS 18001-2007

Available from 6RU~15RU Variants, 600 wide and 400~600 Depth with Double louver cover configurations. Fan mounting provision can be on side or bottom with filter unit to meet IP 55 (Ingress protection) Requirements

## Wall Mount Outdoor Racks Configurator Drawing with Critical Parts

1. Rack Frame
2. Metal Door
3. Filter Unit / Double Louver Cover Module(IP55)
4. Gasket

### Features

- Conforms to DIN 41494 or Equivalent EIA /ISO/ EN/ CEA Standard
- Adjustable mounting depth
- 2 No Adjustable, 19" verticals with Punched 10 mm Square Hole and Universal 12.7 mm -15.875mm- 15.875 mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard for equipments).
- Special Dual Coat Powder coated finish with seven-tank pretreatment process meeting ASTM standard to Meet Harsh Outdoor Requirement.
- Grounding & Bonding options

### Accessories:

- Cable Organisers
- Power Distribution Units
- Shelves
- Cooling Fans
- Rack ground Kit

Technical Data:	
Basic Frame	Steel
Construction	Welded
Top & Bottom Cover	Welded to frame with cable entry exit cut outs in Bottom.
Front Door	Lockable Metal Plain Door
19" Mounting Angle	Formed Steel
Std. Equipment Mounting	DIN Std. 10mm Sq. Slots
Standard Finish	Special Dual Coat Powder coated
Standard Colour	Grey & Off White OR Black
Rack Standard	Conforms to DIN 41494 or equivalent standard
Static Load	30 Kg (Uniformly distributed in U Space) / 2KG Per U

FLOOR MOUNT RACKS  
**FMOD**

### Overview

FMOD Series, General Electronics Floor mount Racks for Outdoor Application and Designed to meet IP54 with Fan & IP55 without Fan (Ingress protection) requirement. Racks manufactured out of CRCA steel sheet punched, formed, welded and to withstand the Harsh Outdoor condition the racks are specially powder coated dual coat with primer & pure polyester powder

Racks are manufactured with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system. Manufacturing facility also comply ISO 14001-2004 & OHSAS 18001-2007

Standard for Racks will be fully welded frame with integrated side panel and Associated Front & Back Metal Door with 3 Point lock & Key and provision to mount racks on Floor.

Available from 6RU to 42RU Variants with 600 & 800 Width and 600~800 Depth configurations.

Fan mounting provision can be on sides or top with canopy with filter unit to meet IP 55 (Ingress protection) requirements

Floor Mount Outdoor Racks Configurator Drawing with Critical Parts

Outdoor Cabinet

## Features

- Conforms to DIN 41494 or Equivalent EIA /ISO/ EN/ CEA Standard
- Adjustable mounting depth
- 2 No Adjustable, 19" verticals with Punched 10 mm Square Hole and Universal 12.7 mm -15.875mm- 15.875 mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard for equipments)
- Special Dual Coat Powder coated finish with seven-tank pretreatment process meeting ASTM standard to Meet Harsh Out door requirement
- Grounding & Bonding options

## Accessories:

- Cable Basket
- Sliding Shelf
- Rack Ground Kit
- Angle Pair
- Key Board Shelf
- Plinth
- Ganging Kit
- Power Distribution Units
- Casters
- Fixed Shelf
- Cable Oragnisers
- Levellers
- Cantilever Shelf
- Fans and Fan Modules

Technical Data:	
Basic Frame	Steel folded
Construction	Welded
Top & Bottom Cover	Welded to frame with cable entry exit cut outs.
Front Door/Rear Door	Lockable Metal Plain Door
19" Mounting Angle	Formed Steel
Std. Equipment Mounting	DIN Std. 10mm Sq. Slots
Standard Finish	Powder coated
Standard Colour	Grey & Off white
Standard Mounting	Plinth
Rack Standard	Conforms to DIN 41494 or equivalent standard
Static Load	750 Kg (Uniformly distributed in U Space) / 20Kg Per U

## OTHER PRODUCTS

- A. Lab Tables & ESD Accessories
- B. Customized Racks
- C. Grounding and Bonding Products
- D. Telecom Racks
- E. DC Power Distribution Board

### Overview

The Table frame is made of 50X25X2MM / or 100X50X2MM high quality structural tube and designed completely modular. NetRack offers both ESD & Non ESD table and completed ESD accessories

General scope includes modular Frame, ESD or non ESD post formed centre tabletops, Lipped bottom tabletops and Cantilever shelf. The lab table dimensions (Height, Depth and Length) is customer specific.

### Features

- Completely Knock down construction
- Composite construction basic frame-Steel powder coated to meet ASTM standard
- Table top made of Post formed / Lipped tabled tops
- Cable channel for both vertical and horizontal cable management
- Vertically adjustable Power Distribution and Data Distribution Channels
- Casters and Levellers for moving and aligning to suit site conditions
- Vertically Adjustable Earthing strips, DIN Rails with support to suit different lab environments

### Accessories:

- |                             |                        |
|-----------------------------|------------------------|
| ■ Cable Organizers          | ■ ESD Accessories-     |
| ■ Data Distribution Channel | ■ Anti-Static Mat      |
| ■ DIN Rail Channel          | ■ Table Ground Kit     |
| ■ Drawer Units              | ■ Wrist Band           |
| ■ Key Board Shelf           | ■ Equipment Ground Kit |
| ■ 19" Rack/Arrangement      |                        |

**Overview**

ESD (Electro Static Discharge) Safety is very important factor to be considered while designing Lab Tables and Rack, using proper accessories is critical for the safety of engineers and technicians working on ESD environment.

NetRack understands the importance of accessories and offers complete range of ESD Accessories properly tested to meet industry standards.

- ESD Safe Table Top
- Anti-Static Mat
- Table Ground Kit
- Wrist Band
- Equipment Ground Kit

Equipment Ground Kit  
Part No: LTA-008

Wrist Band  
Part No: LTA-010

Table Ground Kit  
Part No: LTA-009

Continues Work Station Monitor  
Part No: LTA-011

### Overview

The Racks are tailor made to customer requirement and available in completely steel or aluminum & Steel composite. The Design is completely modular and CKD construction allow to fast and easy assembly at site. Rack subassembly powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Generally these racks are preferred to use as open frame. To meet some special requirement NetRack offers front Doors, Back Doors, Side Panels as option.

Customised Racks Configurator Drawing with Critical Parts

- 1. Frame
- 2. Caster
- 3. Leveller
- 4. Side Panel
- 5. Shelf
- 6. Keyboard Shelf

Features

- Completely Modular and CKD Construction
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- Power coated finish with seven tank pretreatment process meeting ASTM standard
- Grounding & Bonding options
- 2 or 4 Fan module mount provision on top cover
- Preconfigured to use key board shelves, Power distributions, data distribution

Overview

Today with requirement of electrical protection & safety require proper design of Grounding and Bonding at the design stage, NetRack understand the requirement of Grounding and Bonding solutions for IT infrastructure and mission critical equipments. offer complete range of Grounding and Bonding solutions for IT Room, Racks and Runway the products are properly designed to meet required standard in the industry.

Products range include, TMGB, TGB, Horizontal / vertical ground bus bar, bonding solution bond the Racks & Runway to bus bars.

Horizontal Ground Bus Bar

Universal Rack Ground Kit

Bonding Cables

Vertical Ground Bus Bar

Telecom Main Ground Bar

## Overview

NSTR1 Series, Rigid Racks specially designed for Telecom application. Racks manufactured out of steel sheet punched, formed, welded and powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard for Racks configuration will be welded frame with 4 no Pillars of 5 folded profile welded to top and bottom ribbed/reinforced frame additionally supported depth wise by welding 6 no depth rail 4 folded profile. Associated with vented top cover with fan mounting. Front Doors can be Glass OR Perforated Single / Dual with Lock and Key and Back Door can be Front Doors can be Metal Vented OR Perforated Single / Dual with Lock and Key, associated with side panel Integrated or Removable based on depth. The Racks will be free standing on plinth.

Racks are equipped with Integrated cable management 25MM, 75MM & 150MM

Available in 2200MM height with 500, 600 with integrated side panel, 800, 1000 with removable side panels depth configurations and 600, 700 & 800 width configurations

## Features

- Conforms to DIN 41494 or Equivalent EIA / ISO / EN / CEA Standard adjustable mounting depth
- 4 No adjustable, 19" verticals with Punched 10 mm square hole and universal 12.7mm-15.875mm-15.875mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space
- Numbered U positions
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard for equipments)  
Powder coated finish with seven tank pretreatment process meeting ASTM standard
- Grounding & Bonding options
- Fan module Mount provision on top cover

Technical Data:	
Basic Frame	Steel folded
Construction	Welded
Top & Bottom Cover	Welded to Frame with Cable entry exit cut outs
Front Door	Lockable Toughened Glass Door OR Lockable Perforated steel Door
Rear Door	Lockable Steel Door - Plain / Vented / Perforated
19" Mounting Angle	Formed Steel
Std. Equipment Mounting	DIN Std. 10mm Sq. Slots
Standard Finish	Powder coated
Standard Colour	Grey & Off White OR Black
Standard Mounting	Plinth
Rack Standard	Conforms to DIN 41494 or equivalent standard
Static Load	750 KG

TELECOM RACKS  
**NSTR 2**

**Overview**

**Features**

- Conforms to ETSI-21 Standard
- Confirms to DIN 41494 or Equivalent EIA / ISO / EN / CEA with adopter Standard adjustable mounting depth
- 4 No Adjustable, 19" verticals with Punched 10 mm square hole and universal 12.7mm-15.875mm-15.875mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space
- Numbered U positions
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- 100% assured compatibility with all equipments conforming to DIN 41494 (General industrial standard for equipments)  
Powder coated finish with seven tank pretreatment process meeting ASTM standard
- Grounding & Bonding options
- Fan module Mount provision on top cover

Technical Data:	
Basic Frame	Steel folded
Construction	Welded
Top & Bottom Cover	Welded to Frame with Cable entry exit cut outs
Front Door	Lockable Toughened Glass Door OR Lockable Perforated steel Door
Rear Door	Lockable Steel Door - Plain / Vented / Perforated
21" Mounting Angle	Formed Steel
Std. Equipment Mounting	21" ETSI
Std. Equipment Mounting with Adopter	19" DIN DIN 41494 or Equivalent EIA / ISO / EN / CEA
Standard Finish	Powder coated
Standard Color	Grey & Off White OR Black
Standard Mounting	Plinth
Rack Standard	Conforms to ETSI -21" stand OR DIN 41494 with adopter
Static Load	750Kg

**Overview**

DC Power Distribution (DCDB) is very important accessory for Telecom racks as majority of equipments work on DC voltage, NetRack after carefully studying the Requirements offer 200A to 1800 Amp systems with 20X3mm to 100X10mm high quality Copper BUSBARS with tapped hole for power cable Termination to manage different requirements in industry.

The Standard models of 19, 21 or 23 inch standard, Available with MCB mounting OR with out MCB Mounting can be 3U, 4U and 6U variants based Current and Internal configurations. DCDB can be customised based on special large Requirements.

**Model Matrix & Dimensions**

Description	Part Number
DCDB/3U/200A/20X3 Busbar-2	DCDB-3U-001
DCDB/3U/300A/20X6 Busbar-2	DCDB-3U-002
DCDB/4U/650A/50X6 Busbar-2	DCDB-4U-001
DCDB/4U/950A/50X10 Busbar-2	DCDB-4U-002
DCDB/6U/1400A/75X10 Busbar-2	DCDB-6U-001
DCDB/6U/1800A/100X10 Busbar-2	DCDB-6U-002

## Model Matrix & Dimensions

Description	Part Number
DCDB/3U/200A/20X3 Busbar-2/DinRail	DCDB-3U-003
DCDB/3U/300A/20X6 Busbar-2/DinRail	DCDB-3U-004
DCDB/4U/650A/50X6 Busbar-2/DinRail	DCDB-4U-003
DCDB/4U/950A/50X10 Busbar-2/DinRail	DCDB-4U-004
DCDB/6U/1400A/75X10 Busbar-2/DinRail	DCDB-6U-003
DCDB/6U/1800A/100X10 Busbar-2/DinRail	DCDB-6U-004
