

Telecom Racks

OVERVIEW

Racks manufactured out of steel sheet punched, formed, welded and Powder coated with highest quality standards under stringent ISO 9001-2008 Manufacturing & Quality management system to ensure highest quality product.

Standard configurations will be 2200 × 600 × 300 & 2200 × 600 × 450. These racks are made to order. Generally the design, drawing & accessories required will be given by OEM and NetRack domain experts will interact with customer, refine the design and manufacture.

Features

- Conforms to DIN 41494 or Equivalent EIA / ISO / EN / CEA Standard
- Universal 12.7mm – 15.875mm-15.875 mm alternating hole pattern offers greater mounting flexibility, maximizes usable mounting space
- Universal 25 Pitch for ETSI Racks
- Panel Mounting Holes : Punched 10 square in both flanges
- Powder Coated to provide a uniform appearance
- State-of-the-art manufacturing methods provide the best product quality and fastest delivery in the industry
- Custom configurations and assemblies available by special order
- Assembly hardware is included
- Weight capacity ok 750Kg Static (weight must be evenly distributed)
- 100% assured compatibility with all equipments conforming to DIN 41494. (General industrial standard)
- Grounding & Bounding Options
